Figure 3d

Figure 3c.

Figure 3. Schematic diagrams illustrating relationships of the unconformity below Cadomin and Gething Formations along west-east lines in region between Peace and Prophet Rivers, northeastern British Columbia.

Measured sections on which diagrams are based are described in GSC Papers 66-7, 67-19, 69-28 and Bulletins 182.

Vertical Scale 1" = 1000 feet
Horizontal Scale, approximately 1" = 8 miles
Unconformity
Formation boundary, defined, assumed

Figure 3b
Note. Sections 68-12, 68-13 and 68-14 are based on unpublished data.

Figure 3a. Schematic diagram illustrating relationships of the unconformity below Cadomin and Gething Formations along a north-south line between Tetsa and Pine Rivers, northeastern British Columbia.

Measured sections on which diagram is based are described in GSC Papers 66-7, 67-19, 69-23, and Bulletins 182.

Vertical Scale 1" = 1000 feet
Horizontal Scale, approximately 1" = 8 miles
Unconformity
Formation boundary, defined, assumed
