LEGEND

- **Sand** – well sorted, medium, with shell debris.
- **Gravel** – with minor sand, lag surface overlying glacial till and/or bedrock, with boulders.
- **Bedrock** – with patches of sand, gravel and boulders. Appears as ridges, ledges, and rough topography.
- **Sand Ribbons** – indicates approximate trend. Thin, parallel sand bedforms, occasionally with megaripples and sand waves.
- – location of seismic profile

Note:

Water depths in metres
Bathymetry contour interval 5 m in depths over 5 m
Bathymetry data obtained from CHS field sheets 1587 and 4608
