

TABLE 3.

Description of Localities	Underlying Formation	Overlying Formation	Thickness in Feet
Between Told Fiord and Blind Fiord, Ellesmere Island; locality 32; <u>Eureka Sound South</u> .	van Haven	Bjorne	140
Near head of Told Fiord, Ellesmere Island; locality 33; <u>Eureka Sound South</u> .	Canyon Fiord	Bjorne	215
West side of Blind Fiord, Ellesmere Island; locality 61; <u>Eureka Sound South</u> .	van Haven	Blind Fiord	100
North of Vesle Fiord in Sawtooth Mountains, Ellesmere Island; locality 122; <u>Eureka Sound North</u> .	Assistana	Bjorne	580
Northeast of head of Vesle Fiord, Ellesmere Island; locality 77; <u>Canyon Fiord</u> .	Canyon Fiord	Bjorne	78
Between Wolf Valley and South Bay, Ellesmere Island; locality 76; <u>Canyon Fiord</u> .	Canyon Fiord	Bjorne	650
About 12 miles south of Mount Briggs in Sawtooth Mountains, Ellesmere Island; locality 170; Canyon Fiord <u>Greely Fiord West</u> .	Assistana	Bjorne	975
Type locality of Formation, north side Canyon Fiord, Ellesmere Island; locality 72; Canyon Fiord <u>Greely Fiord West</u> .	Assistana	Bjorne	250
North side Canyon Fiord, Ellesmere Island; locality 71; <u>Canyon Fiord</u> .	Assistana	Bjorne	550
North side of Greely Fiord, Ellesmere Island; locality 79; <u>Greely Fiord West</u> .	Jabine Bay	Bjorne	450
West side Tanquary Fiord, Ellesmere Island; locality 171; <u>Greely Fiord East</u> .	TANQUARY	Bjorne	285
Northwest of head of Hare Fiord, Ellesmere Island; locality 68; <u>Otto Fiord</u> .	Canyon Fiord	Fault contact	390+

Locations of measured sections of Told Fiord Formation showing underlying and overlying rock units and thicknesses of the formations. The Bjorne Formation and Blind Fiord Formation are facies equivalents of one another, and both are of Early Tertiary age.
