

The following report is being placed on Open File for inspection at the library of the Geological Survey of Canada, 601 Booth Street, Ottawa, Ontario, K1A 0E8.

A report on the first phase of the Cape Breton Mineral Resources Project, August 31, 1969, by W.S. Shaw consisting 71p; 2 Appendices; 4 coloured maps.

The Cape Breton Development Corporation (Devco) has requested that a copy of this report ("Cape Breton Mineral Resources Project, Aug. 69") be placed on the Geological Survey of Canada Open File. It was prepared by Dr. W.S. Shaw, St. Francis Xavier University, Antigonish, on contract to Devco. It summarizes the geology of Cape Breton Island, compiles the known metallic mineral occurrences plus barite, fluorspar, magnesite and celestite, and points out the systematic association of ore minerals, rock types, structures and geological conditions.

Copies of this report will not be available.

Dartmouth, N.S.

Dear Mr. Gervais:

In your letter of Sept. 21 you asked if our open file copy of the Cape Breton Mineral Resources Project report was available for loan (open file 71). While our reply must be "NO", I have found that there are other copies also on open file in Nova Scotia. A list follows:

Dr. J.P. Nowlan, Deputy Minister
Department of Mines
Halifax

Dr. W.S. Shaw,
Dept. of Geology
St. Francis-Xavier University
Antigonish

Dr. J.L. Jenness
Cape Breton Development Corporation
Sydney

Dr. Poole

The geologist who arranged for the deposit of our copy tells me that you should be able to arrange to see a copy by contacting any of the above.

Sincerely yours,

M. Sutherland

RE: Open File

Dear Sir:

In regard to the attached card, does the "Open File" mean that I can only see this publication in your library in Ottawa or do you send it out on a loan basis.

Yours very truly,

A handwritten signature in dark ink, appearing to read 'F. A. Gervais'.

F.A. Gervais, P. Eng.
Materials & Research Engineer.
