Plate XI. Stereoscopic pairs. Moraine plateau in well-developed hummocky (or dead-ice) moraine; (A) flat moraine plateaux; (B) segments of rim ridges which locally mark edges of the plateaux; (C) plateaux entirely enclosed by rim ridges; (D) parallel rim ridges close together and tending towards a moraine ridge, notice continuation in rim ridge or plateau to north; (E) areas of hummocky moraine formed of knobs, probably small moraine plateaux, with central depressions. Tps. 33 and 34, rges. 19 and 20, W.4th mer.
