

Table 1  
Reported occurrences of coal or coaly materials in Prince Edward Island exploration holes

Ref. No.	Well or borehole name	Years(s) drilled	Type of well	Interval in feet below rig floor	Remarks
6	H.L. Doherty Co., Doherty No. 2	1926-1927	Rotary	4970-5070, 5440	scattered coal fragments
7	Island Development Co., Hillsborough No. 1	1943-1944	Rotary	745-790, 865, 925, 1270	carbonized wood and carbonaceous films
				4080, 5350	small coal fragments
				5455-10 900	numerous horizons with occasional to few coal fragments; from small seams
8	Imperial Oil Ltd., Wellington Station No. 1	1958	Rotary	2120-2150	trace of coal
				2330-2350	some coal
				2530-2550, 2760-2780, 2820-2830	trace of coal
				2860-2870	some coal
				2880-3940	trace of coal, to scattered fragments
9	Imperial Oil Ltd., MacDougall No. 1	1958	Rotary	1370-1390	few coaly fragments
				1380-1540	trace of coal
				1750	many coal fragments
				1770	5% coal fragments
				1780-1860	trace of coal
				1890-1900	30% coal, dense hard black
				1900-1949 2090-2320	trace of coal
				2320-2330	coal less than 5%
				2470-2480 2510-2520	5% coal
				2540-2580	trace of coal
				2590-2600	5% coal
				2610-2760	trace of coal
				3310-3370	coal partings
10	Imperial Oil Ltd., Porthill No. 1	1958	Rotary	3370-3410	trace of coal
				1910	few coaly fragments
				2120-2130	trace of coal
				2220-2230	5% coal
				2230-2240	less than 5% coal
				2310-2320 2620-2630 2650-2670 2680-2690	a few fragments of coal
				2770-2780 2810-2850	trace of coal
				2850-2860	5% coal
				2860-2870	20% coal
				2870-2880	5% coal
				2880-2910 2950-2960 2970-2980 3000-3010 3030-3100 3190-3200 3300-3320 3350-3420 3520-3560 3580-3590 3640-3650 3660-3720 3750-3890 4000-4010 4050-4060 4070-4100 4110-4120 4160-4190	trace of coal
				271-272 324-333	carbonaceous partings, plant remains
				335, 338, 350	thin coal partings
12	HB, Fina, East Point E-49	1970	Rotary	5160-5170	5% coal
				5180-5190	20% coal
				5370-5380	5% coal
				7210	trace of coal
				7353-7855	minor interbeds of thin coal seams
				7740-7751	coal, 3-inch bed (core)
				7751-7756 7763-7770	scattered fragments of carbonized wood (core)
				7770-7781	coal, 3-foot bed in part very silty and argillaceous (core)
				7855-9700	thin interbedded coal seam
				9110	10% coal
13	HB Fina et al., Irishtown No. 1	1972	Rotary	9150	5% coal
				9320	3% coal
				2920-2940 3500 4710-4740	a few coal fragments
				4957-4960	3 feet of bituminous coal
14	HB Fina et al., Green Gables No. 1	1972	Rotary	5175-5190	coal stringers
				5660	trace of coal
				5260	few coal fragments
				5400-5455	trace of coal
				5455-5490	up to 10% coal
				5600-5720	trace of coal
				5717-6155	thin coal stringers
				6155-7731	minor coal stringers
				6890-6900	10 feet of coal
