INTRODUCTION

This index of publications issued during 1963 is included for the first time in the Paper Series, but is essentially no different from the previous supplements for 1959, 1960 and 1961, 1962. All are supplementary to the index by A.G. Johnston and together with it provide a complete index of publications issued by the Geological Survey of Canada up to the end of 1963.

It contains also a list of papers by officers of the Geological Survey published in various scientific periodicals.
