Department of Mines

HON. L. CODERRE, MINISTER; R. G. McCONNELL, DEPUTY MINISTER.

GEOLOGICAL SURVEY

SUPERFICIAL GEOLOGY

TOPOGRAPHY

LEGEND

- QUATERNARY**
- POST-GLACIAL EPOCH
 - 7 Bench alluvium
 - 6 Valley and swamp alluvium
 - VASHON GLACIAL EPOCH
 - 5 Colwood sands and gravels (stage of glacial retreat)
 - 4 Vashon drift (stage of glacial occupation)
 - PUVALLUP INTER GLACIAL EPOCH
 - 3 Cordova sands and gravels
 - 2 Maywood clays
 - ADMIRALTY GLACIAL EPOCH
 - 1 Admiralty till (not shown on map)
- Other Symbols:**
- Rock outcrops
 - Chiefly rock outcrops but some drift
 - Geological boundaries (position approximate)
 - Glacial striae

LEGEND

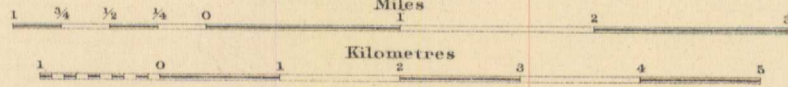

- Culture**
- Streets, roads and buildings
 - Private roads and roads not well defined
 - Trails
 - Railways
 - Bridges
 - Churches and schools
 - Cemeteries
 - Wharves
 - Lighthouses
 - Beacons
 - Triangulation stations
 - Bench marks
 - District boundaries
- Water**
- Rivers and lakes
 - Watercourses with intermittent flow
 - Fresh marshes
 - Tidal flats
 - Springs
- Relief**
- Contours (showing local areas and elevations above sea level) Interval, 20 feet
 - Figures showing heights in feet above sea level
- Geographical position by triangulation, based on U.S. and C.S. stations 'Comet' and 'Discovery' near Victoria. Average magnetic declination 24'30" East.*

C. O. Smead, Geologist and Chief Draftsman.
A. Dickson, and A. F. Clark, Draftsmen.
