GEOLOGICAL SURVEY

HON. R. ROGERS, MINISTER; A.P. LOW, DEPUTY MINISTER;
R.W. BROCK, DIRECTOR.

AREAL GEOLOGY

BRITISH COLUMBIA

LEGEND

- QUATERNARY**
- Q Stream deposits (gravel and sand)
- TERTIARY**
- 3 Skagit volcanics (andesite breccia)
 - 2 Granodiorite
 - 1 Granophyre
- MESOZOIC** LOWER CRETACEOUS
- K Pasayten formation (argillite, sandstone, conglomerate, and andesite flows)
- PALAEZOIC** CARBONIFEROUS
- C Hozomeen series (cherty quartzite, argillite, limestone and volcanic flows)
- Symbols**
- Geological boundary (defined)
 - Geological boundary (assumed)
 - Fault
 - Fault (not definitely located)
 - Downthrow side of fault
 - Uphrow side of fault

LEGEND

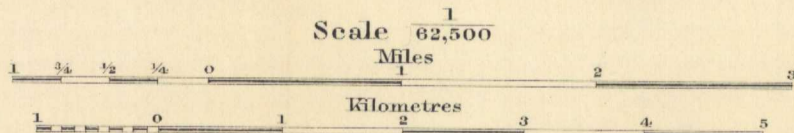

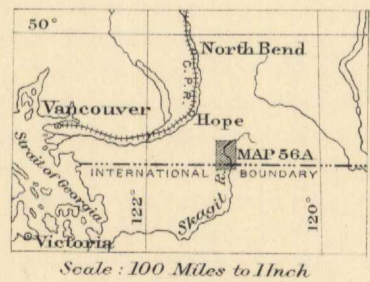

- Trails and buildings
- Bridges
- Prospects
- Rivers and streams
- Glaciers
- Approximate land forms
- Figures (Showing approximate heights above sea level)
- Approximate magnetic declination 23° East
