

Issued 1928

Structural section along line A-B  
Horizontal scale, 1 inch to 1 mile  
Vertical scale, 1 inch to 750 feet

LEGEND

- LATE PRECAMBRIAN**  
(Kaministikwan)
- 8 Dykes of diabase and related rocks
  - 7 Sills of diabase and related rocks
  - 6 OSLER  
Lavas and pyroclastics
  - 5 OSLER  
Conglomerate, sandstone and water-lain tuff
  - 4 SIBLEY  
Conglomerate, sandstone and limestone, each with intermitted tuff, thinly-bedded, cherty limestone
  - 3 ANIMIKIE  
(a) conglomerate;  
(b) cherty limestone;  
(c) lower iron formation;  
(d) shale and water-sorted tuff;  
(e) upper iron formation;  
(f) shale and greywacke, in part tufaceous
- EARLY PRECAMBRIAN**  
BATHOLITHIC INTRUSIVES
- 2 Granite and gneiss
- SCHIST COMPLEX**
- 1 Altered lavas and pyroclastics, amphibolite, etc.
- Rock outcrop
- Fault
- Bedding, strike and dip
- Schistosity, strike and dip
- Glacial striae

LEGEND

- Roads and buildings
  - Road not well travelled
  - Road along township or city boundary
  - Trail
  - Railway
  - Electric railway
  - Electric railway along road
  - Power line
  - Highway boundary line
  - Bridge
  - Church
  - School
  - Post office
  - Cemetery
  - Mine or quarry
  - Bore-hole
  - Wireless station
  - Tourist camping ground
  - Telegraph station
  - Township boundary
  - City boundary
  - Indian Reserve boundary
  - Intermittent stream
  - Stream (position approximate)
  - Contours (position approximate)
  - Contours (position approximate)
  - Depression contour
  - Height in feet
- Elevations referred to Mean sea level

To accompany Memoir by T. L. Tanton.

Scale, 1 inch to 200 Miles
