

GAS AND OIL FIELDS

1. Mersea oil field
2. Kingsville gas field (in part)
3. Tilbury gas field
4. Glenwood oil pool
5. Wheatley oil pool
6. Romney oil pool
7. Declute gas field
8. Fletcher oil field
9. Dover gas and oil field

Wells in Chatham township, Gore of Chatham, and Pelee Island do not lie within numbered, oil or gas fields.

NOTE: The wells shown on this diagram are those whose positions have been determined and for which adequate information is available. In addition, there are wells whose locations are not available.

To illustrate Memoir No. 240, "Palaeozoic Geology of the Windsor-Sarnia Area, Ontario," by J.F. Coley.

 (SOUTHEASTERN PART)

SHOWING STRUCTURE CONTOURS DRAWN ON TOP OF THE NORFOLK AND GUELPH FORMATIONS, AND POSITIONS OF WELLS DRILLED TO OBTAIN OIL AND NATURAL GAS

Scale, 1/26720 or 1 inch to 2 Miles

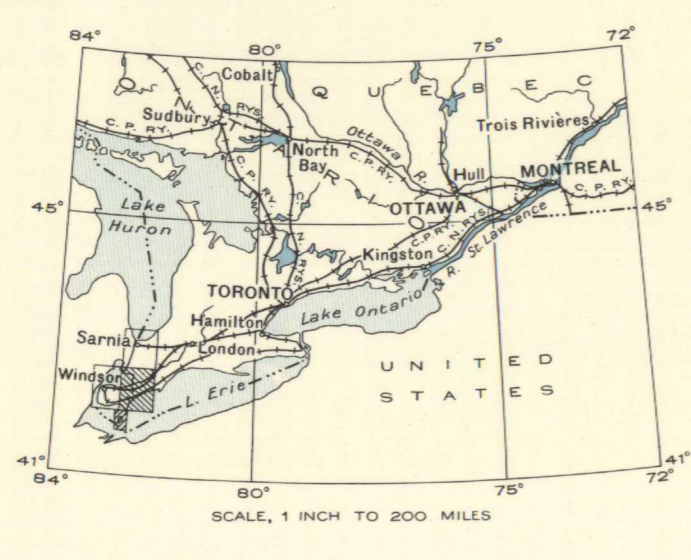

LEGEND

- Structure contour on top of Norfolk formation
- Structure contour on top of Guelph formation
- Contour interval 20 feet datum sea-level
- Boundary of oil or gas field (approximate)
- Well with initial yield of oil of commercial quantity
- Well with initial yield of both oil and natural gas of commercial quantity
- Well with initial yield of natural gas of commercial quantity
- Well either dry or with initial yield of oil or natural gas not of commercial quantity
- Well for which information is lacking as to whether oil or natural gas in commercial quantity was or was not produced

NOTE: The depth, below sea-level, to the top of the Guelph (G) or Trenton (T) formations is indicated at a few wells, for example, -8246 on -20707.
