

Canada Department of Mines

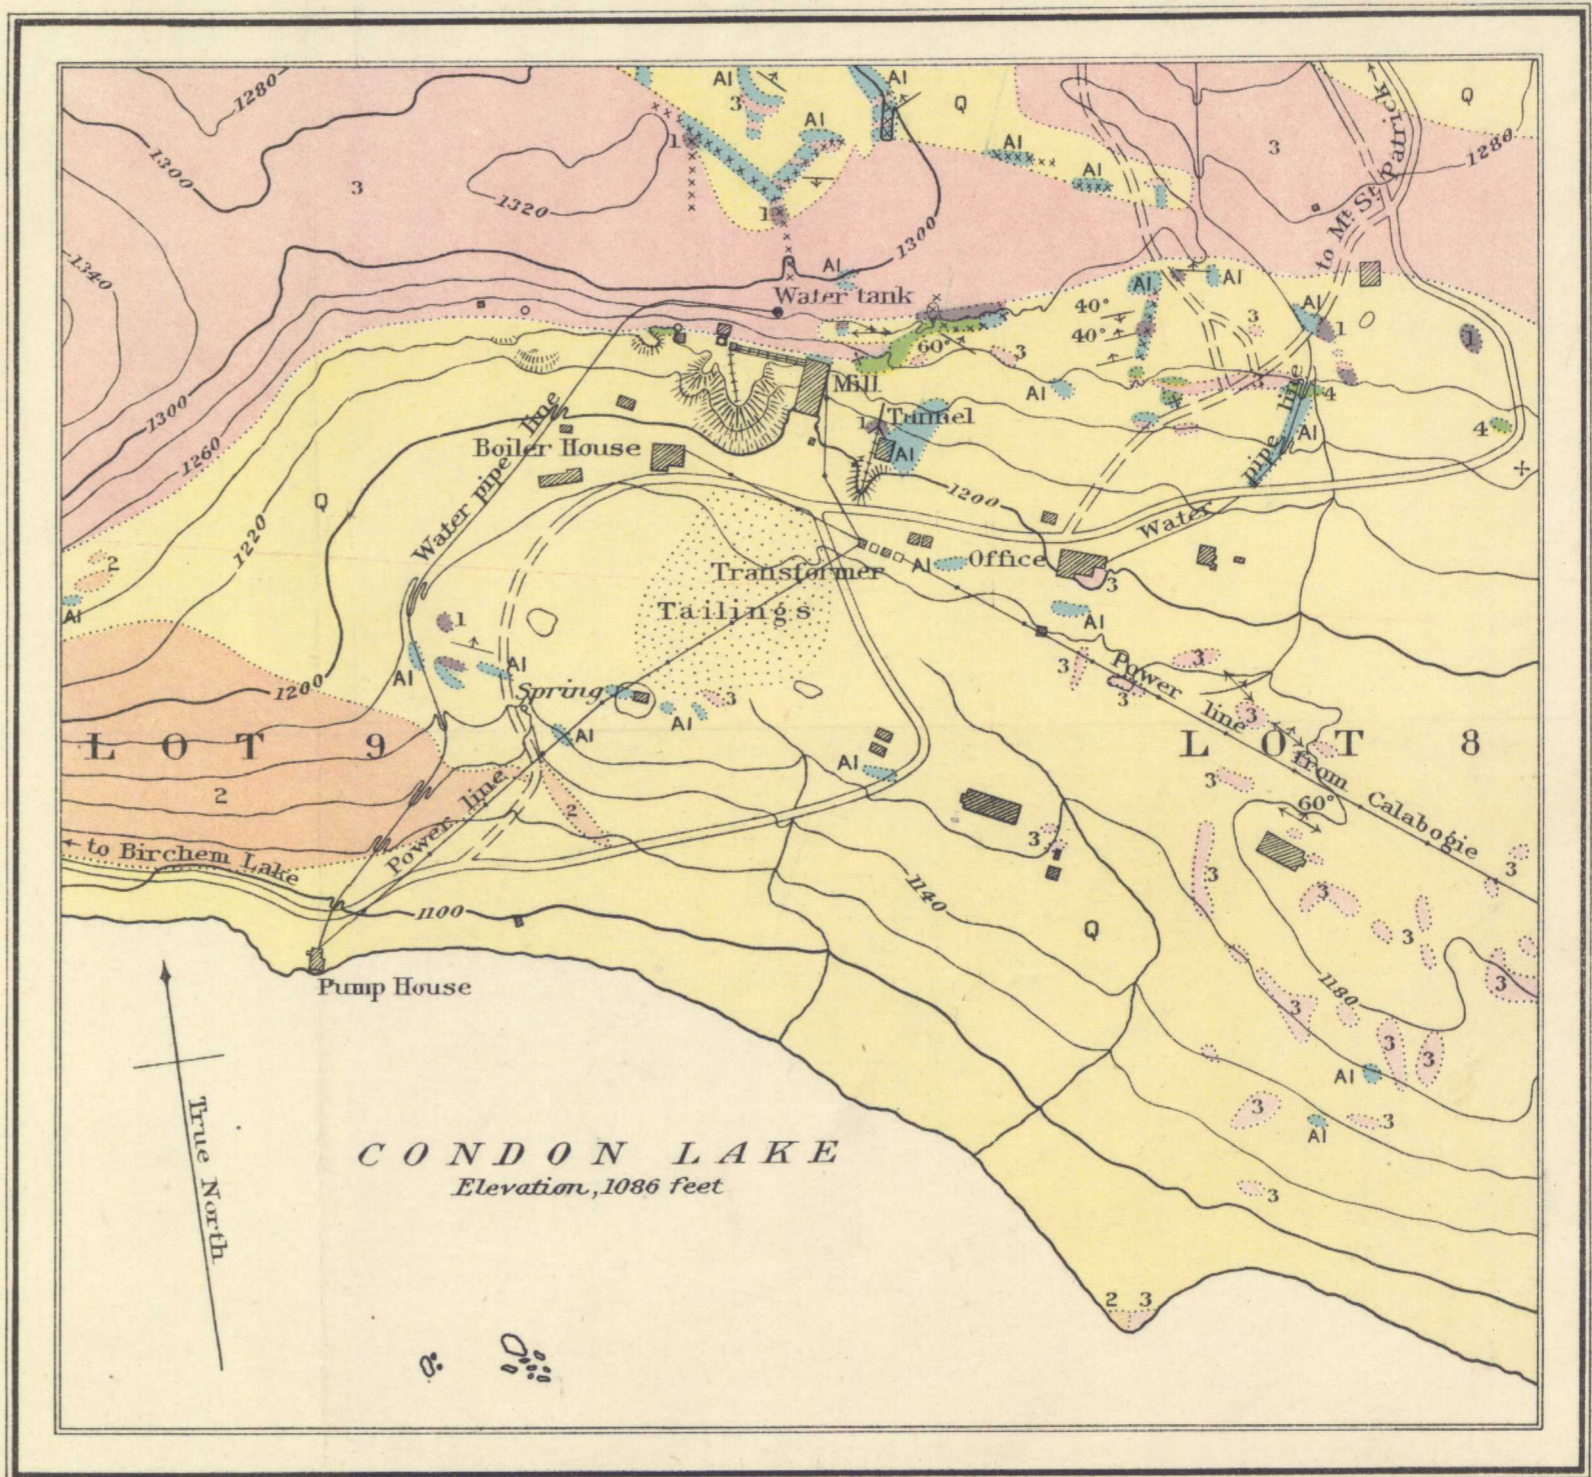

HON. SIR JAMES A. LOUGHEED, MINISTER; CHARLES CAMSELL, ACTING DEPUTY MINISTER.

GEOLOGICAL SURVEY
WILLIAM McINNES, DIRECTOR.

Issued 1920

LEGEND

GLACIAL	Q	Boulders, gravel, and sand	— — — — —	Geological boundary
	4	Molybdenite bearing pyroxenite	/ 60°	Dip and strike
	3	Pegmatite	\ 60°	Dip and strike, foliation
	2	Hornblende syenite	▨ ▨ ▨ ▨	Roads and buildings
	1	Diorite	= = = = =	Roads (not well defined)
EARLY PRECAMBRIAN QUATERNARY	AI	Crystalline limestone	— — — — —	Mine tramways
			— — — — —	Elevated tramways
			x x x x x	Trenches
			o	Shafts
			x	Prospects
			1200 1100	Contours (showing land forms and elevations above sea-level)
			▨ ▨ ▨ ▨	Mine dumps
				Approximate magnetic declination, 10° 20' West.

C.O. Senécal, Geographer and Chief Draughtsman.
A.M. Greer, Draughtsman.

Publication N° 1800

MOLYBDENITE DEPOSITS, LOTS 8 AND 9, CONCESSION XI, BROUGHAM TOWNSHIP, RENFREW COUNTY, ONTARIO.

Scale of Feet
0 100 200 300 400 500
