

PUBLIÉE EN 1981 PUBLISHED 1981

LIGNES ISOMAGNÉTIQUES (valeur absolue du champ total)  
ISOMAGNETIC LINES (absolute total field)

- 500 gammes
- 100 gammes
- 20 gammes
- 10 gammes
- Dépression magnétique
- Magnetic depression
- Lignes de vol
- Flight lines

1 gamma =  $10^{-4}$  tesla en unités SI.

1 gamma =  $10^{-4}$  tesla in SI units.

Altitude du vol: 300 mètres au-dessus du niveau du sol

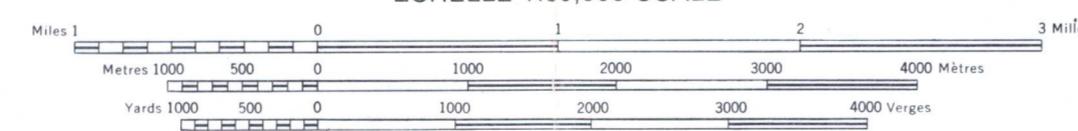

Flight altitude: 300 metres above ground level

Courbe de niveau en pieds au-dessus du niveau moyen de la mer

Elevation contours in feet above mean sea level

ON PEUT OBTENIR DES EXEMPLAIRES DE CETTE CARTE PAR SOUSCRIPTION À LA SECTION DES PUBLICATIONS DU MINISTÈRE DES RICHESSES NATURELLES, À QUÉBEC, OU À LA COMMISSION GÉOLOGIQUE DU CANADA, OTTAWA, OU PAR LE TRAVERSÉE DES RÉGIONS DU QUÉBEC, PAR LA PUBLICATIONS DIVISION OF THE QUEBEC DEPARTMENT OF NATURAL RESOURCES, QUÉBEC, OU PAR LE TRAVERSÉE DES RÉGIONS DU QUÉBEC, PAR LA PUBLICATIONS DIVISION OF THE GEOLOGICAL SURVEY OF CANADA, OTTAWA.  
LE GRAND LAC DU LARGE SONT DANS LE DISTRICT DE KEEWATIN, N.W.T.  
OFF-SHORE ISLANDS LIE WITHIN THE DISTRICT OF KEEWATIN, N.W.T.

This map was compiled from digitally-recorded aeromagnetic survey data obtained by a proton precession magnetometer which measured the total field with a resolution of 1 gamma. The flight path of the survey aircraft was recovered from 35 magnetic tracings onto aerial photographs transferred to a topographical map, and recorded on stereomaterial in digital form.

After editing the survey data, the coordinates of the intersections of traverses and control lines and differences in their magnetic values were printed out for use in the computer programs.

The total field values were generated on a 0.3219 cm square grid at the published map scale using Geoterrex Limited computer programs; the final aeromagnetic maps were contoured using the computer and digital plotting facilities of Phototur Inc.

The data used in compiling this map are available in digital form from the ministry's data handling facilities du Québec and the Federal Department of Energy, Mines and Resources. For the cost of reproduction and copying, the analog records are available from the ministère des Richesses naturelles du Québec.

Airborne magnetic surveys carried out by Phototur Inc. and Geoterrex Limited in 1973 and 1979.

No correction has been made for regional variation.

Base map from maps published by the Surveys and Mapping Branch, Department of Energy, Mines and Resources, Ottawa.
