## CARTE - MAP

9064 G

## LAC DESJARDINS

QUÉBEC

ÉCHELLE 1:50,000 SCALE

LIGNES ISOMAGNÉTIQUES (valeur absolue du champ total)  
ISOMAGNETIC LINES (absolute total field)

- 500 gammes .....
- 100 gammes .....
- 20 gammes .....
- 10 gammes .....
- Dépression magnétique .....
- Magnetic depression .....
- Lignes de vol .....
- Flight lines .....

1 gamma =  $10^{-5}$  tesla en unités SI.1 gamma =  $10^{-5}$  tesla en SI units.

Altitude du vol: 300 mètres au-dessus du niveau du sol

Flight altitude: 300 metres above ground level

Court de niveau en pieds au-dessus du niveau moyen de la mer

Elevation contours in feet above mean sea level

Direction de vol: Nord-Sud

Flight direction: North-South

Carte de base provenant de cartes publiées par la Direction des Levés et de la Cartographie, ministère de l'Énergie, des Mines et des Ressources, Ottawa.

ON PEUT OBTENIR DES EXEMPLAIRES DE CETTE CARTE EN S'ADRESSANT À LA DIRECTION DES LEVÉS ET DE LA CARTOGRAPHIE, MINISTÈRE DES RICHESSES NATURELLES, À QUÉBEC, OU À LA COMMISSION GÉOLOGIQUE DU CANADA. UNE COPIE DE CE MAPPEMENT PEUT ÊTRE OBTENUE PAR LA PUBLICATIONS DIVISION, DU QUÉBEC DEPARTMENT OF NATURAL RESOURCES, OTTAWA, OU PAR LA GEOLOGICAL SURVEY OF CANADA, OTTAWA.  
LES TERRAINS DE GRANDE ÉCHELLE SONT DANS LE DISTRICT DE KEWATIN-T.N.O. CERTAINS TERRAINS SONT DANS LE DISTRICT DE KEWATIN-N.W.T.

This map was compiled from digitally-recorded aeromagnetic survey data obtained by a proton precession magnetometer which measured the total field with a resolution of 1 gamma. The flight path of the survey aircraft was recovered from 35 mm track film onto aerial photographs, transferred to a topographical map and reduced on state-of-the-art computer facilities.

After editing the survey data, the coordinates of the intersections of traverse and control lines and differences in their magnetic values were printed out for use in the manual compilation of the map.

The total field values were generated on a 0.3219 cm square grid at the published map scale using Geotrex Limited computer programs; the final aeromagnetic data were contoured using the computer and digital plotting facilities of Photour Inc.

The data used in compiling this map are available to the Federal Department of Energy, Mines and Resources, for the cost of retrieval and copying. The analog records are available from the ministry des Richesses naturelles du Québec only.

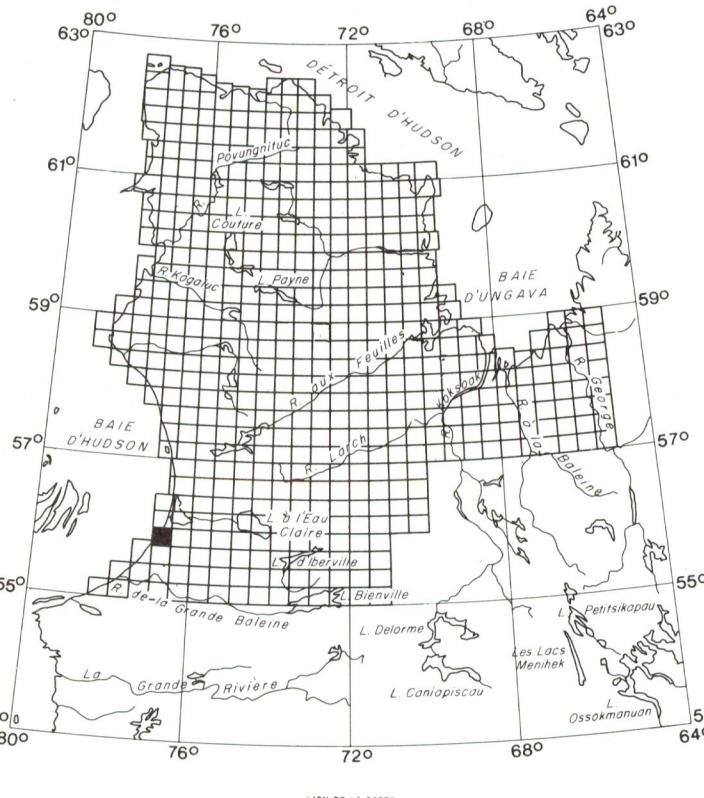

A regional variation correction has been made by Photour Inc. and Geotrex Limited between June, 1973 and September, 1974.

No correction has been made for regional variation.

Base map from maps published by the Surveys and Mapping Branch, Department of Energy, Mines and Resources, Ottawa.

This document was produced by scanning the original publication.

Ce document est le produit d'une numérisation par balayage de la publication originale.
