

MAP 7146 G  
**TADOULE LAKE**  
MANITOBA

Scale: One Inch to Four Miles =  $\frac{1}{253,440}$   
Miles

Airborne Magnetic Survey, June to September 1956 by the Geophysics Division, Geological Survey of Canada. This four mile map was compiled from one inch to one mile geophysical maps published by the Department of Mines and Technical Surveys

No correction has been made for regional variation

The planimetry for this map has been traced from maps based on trimetrogon photography with limited ground control. Lack of planimetric control may have led to large position errors in places.
