

MAP 7041G

# WOODSTOCK NEW BRUNSWICK

Scale: One Inch to Four Miles =  $\frac{1}{253,440}$   
Miles

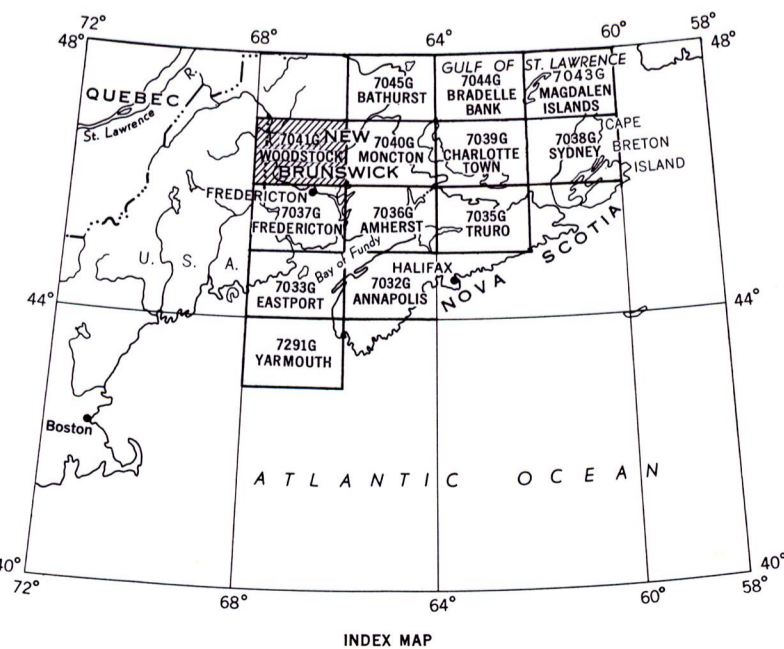

Airborne Magnetic Survey, January to March 1950, and May to September 1958,  
by the Geological Survey of Canada, Department of Mines and Technical Surveys.

No correction has been made for regional variation.

One-mile sheets 21 J-1, J-2, J-7, J-8, J-9 and J-16 were flown at a mean terrain  
clearance of 1000 feet. The remainder of this sheet was flown at 500 feet.
