

GEOLOGICAL SURVEY OF CANADA
DEPARTMENT OF MINES AND TECHNICAL SURVEYS

SHIP MAGNETOMETER AND AEROMAGNETIC SERIES

SHEET 10/L AND PART OF 20/I

The airborne magnetic survey covering one-mile map sheets 10L/7, 10L/8, 10L/9, 10L/10, 10L/15, 10L/16 and part of 10L/6, 10L/11 and 10L/14 was conducted between May and October, 1962 by 415 Squadron RCAF Summerside at 200 feet above sea-level. Compilation by the Geological Survey of Canada.
A correction has been applied to these sheets for regional variation of the earth's magnetic field; this regional variation decreases at a uniform rate of 6.3 gammas per mile in a direction 35° east of south.

MAP 7307G
SCOTIAN SHELFF
10/L
AND PART OF 20/I

The ship magnetometer survey of one-mile map sheets 10L/5, 10L/12, 10L/13, also 20I/8, 20I/9 and 20I/16 and part of 10L/6, 10L/11 and 10L/14 was carried out between May and October, 1962 by the Geological Survey of Canada.
No correction has been made for regional variation.
Bathymetric contours in feet below sea-level. 200'
Drafting by Spartan Air Services Ltd.
