

MAP 41-1989 SHEET 2 FOSSIL LOCATIONS HOPE BRITISH COLUMBIA

Table with 5 columns: Map No., Diagnostic Age, Fossil Group, Collector, Identifier. It lists numerous fossil locations with their corresponding geological units and diagnostic ages, such as '394-1 Late Devonian' and '394-2 Early Devonian'.

Scale 1:250 000 - Echelle 1/250 000. Includes information about the map's production, including the author's name (J.W.H. Monger) and the year (1989).

Notes on the table: The data in the table are presented generally in the order shown on map units in the legend of map sheet and are listed to those units. Each fossil location number consists of a base number (1) followed by a letter (A-Z) and a number (1-99). Fossil locations are listed within the Late Paleozoic Chilhowee Group in map sheet 41/1 through 41/17.

Continuation of the fossil location table, listing entries from 394-1 to 904-17. It includes details on fossil groups like 'ammonites', 'brachiopods', and 'trilobites', and collectors such as 'Monger' and 'Hawthorn'.

Geological cartography by the Geological Survey of Canada. Thematic information on this map is reproduced directly from author's copy.

Any revisions or additional geological information known to the user should be welcomed by the Geological Survey of Canada. Base map at the same scale published by the Geological Survey of Canada in 1970.
