KENO HILL YUKON TERRITORY

HEAVY MINERAL CONCENTRATES
FROM STREAM SEDIMENTS

Sample site
and data
element concentration
1 = 100-10%
2 = 10-1%
3 = 1-0.1%
4 = 0.1-0.01%
5 = 0.01-0.001%
Sample numbers overcoloured by
pink indicate sample data
has been transferred to
the nearest margin
Sample numbers overcoloured by
blue indicate no sample
taken or insufficient sample
for analysis

LEGEND

Sample location and number 610065

Chemical analyses by J. J. Lynch

Spectrographic analyses by W. H. Champ

Field work by C. F. Gleeson et al., 1964
