■	MINE OR DEPOSIT	(production and/or reserves of one or more commodities)
▲	PROSPECT	(grade data available for one or more commodities, but insufficient to calculate tonnage)
×	SHOWING	(one or more commodities occur but no quantitative data available)

Data for this Open File were compiled from existing Energy, Mines and Resources and Ontario Geological Survey mineral inventory files, EMR and OGS publications, mining company reports and assessment files and from personal knowledge of the compilers and OGS staff in the resident geologists' offices.

Compilation was done in the resident geologists' offices in Sudbury, Sault Ste. Marie and Timmins between October 1983 and May 1984. Project leader was D.C. Rose.

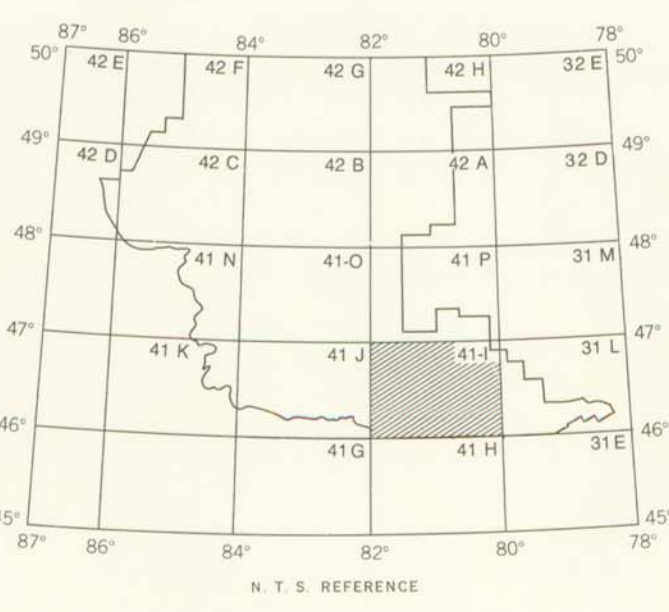

Final validation and preparation of the data were done at the Geological Survey of Canada in Ottawa.
