

LEGEND

Legend entries for Windsor Group (WR), Meguma Group (GR, FZ, CN, MI, TK), and Goldenville Formation (NH, RBSSs) with their respective geological symbols and descriptions.

Symbols section listing geological features like Station outcrop, Geological Boundary, Bedding, Main cleavage, Late cleavage, and Axial trace of macroscopic structures.

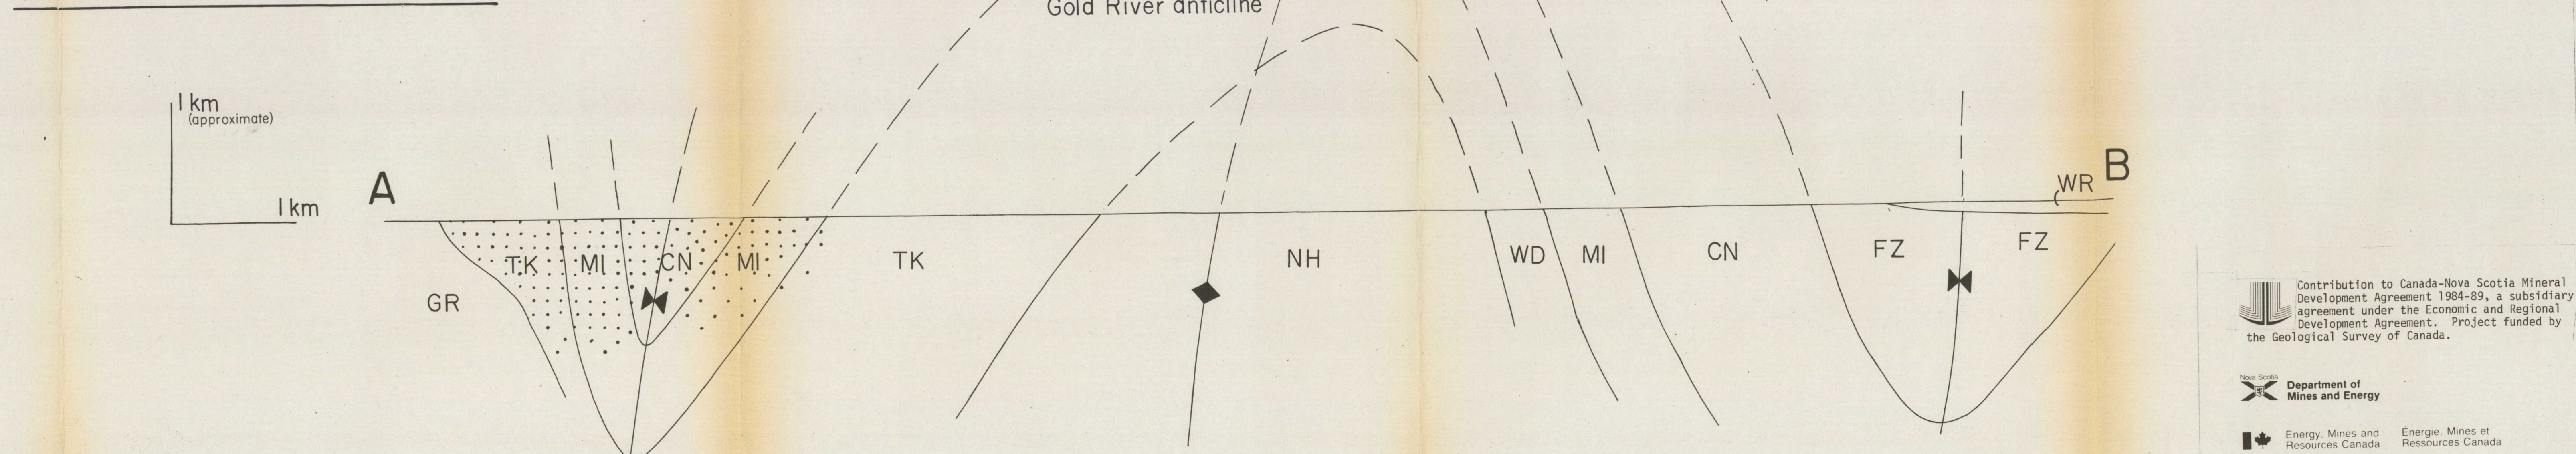

Mineral occurrence symbols for Au, Cu, Mo, Fe, Mn, U, and W, along with their common locations on the map.

Note: Map units and symbols not present on this map sheet occur on another map sheet or on the open file map of the Lahave area.

Descriptive notes and references section containing detailed geological descriptions of the Windsor, Meguma, and Goldenville formations, and a list of references.

Structural cross-section

Title block for the Geological Map of the Mahone Bay Area, Nova Scotia, Sheet A, including the title, authors (Geology by B.H. O'Brien, G.F. Gouthro, P.D. Barrette, S.E. Palmer, D.A. Kenney), and the year 1985.
