

For location of the following specific information for this area refer to British Columbia Ministry of Energy, Mines and Petroleum Resources: Mineral Deposits: Mineral Inventory Map, M1 1045; Assessment Reports: Assessment Report Index Map, AR 1048; Geological Mapping: Index of Bedrock Mapping, 1983; Victoria Placer and Mineral Claim Maps: Mineral Titles Eriach, Victoria

This map forms one of a series of open file maps (B.C. RGS 18-20) released in 1988 by the British Columbia Geological Survey in co-operation with the Geological Survey of Canada. Open File RGS 19 consists of sample location maps at 1:100 000 and 1:250 000 scale, symbol and value maps for 20 elements in stream sediments and 2 elements in stream waters, a current mineral inventory map, listings of field and analytical results and a statistical summary.

Copies of map material and listings of field observations, analytical data and methods, from which the open file was prepared are available for reference at:

Ministry Library in Victoria
Libraries of the Geological Survey of Canada
Map Library at the University of British Columbia, Vancouver

For purchase at:

NATIONAL GEOCHEMICAL RECONNAISSANCE MAP 111
CANADA-BRITISH COLUMBIA
MINERAL DEVELOPMENT AGREEMENT (1985-1989)
STREAM SEDIMENT AND WATER GEOCHEMICAL SURVEY
NORTHWESTERN BRITISH COLUMBIA, 1987

Scale 1:100 000

This topographic base map obtained by photographic reduction of 1:50 000 maps produced by the Surveys and Mapping Branch of Energy, Mines and Resources Canada from aerial photographs taken from 1970 to 1980. Information current as of 1974.

Elevation in feet above mean sea level

104G/SW : Mean magnetic declination 1954, 300'15" East in NE corner of map area, decreasing 4.0' annually
104F/SE : Mean magnetic declination 1966, 280'45" East in NW corner of map area, increasing 3.8' annually
