This map forms one of a series of open file maps (B.C. RGS 18-20)
released in 1988 by the British Columbia Geological Survey in co-
operation with the Geological Survey of Canada. 1:250 000
Open File RGS 19 consists of sample location maps at 1:100 000 and
1:250 000 scale, symbol and value maps for 20 elements in stream
sediments and 2 elements in stream waters, a current mineral inventory
map, listings of field and analytical results and a statistical summary.

Copies of map material and listings of field observations, analytical data
and methods, from which the open file was prepared are available
