This map forms one of a series of open file maps (B.C. RGS 19-20) released in 1988 by the British Columbia Geological Survey in co-operation with the Geological Survey of Canada.
 Open File RGS 19 consists of sample location maps at 1:100 000 and 1:500 000 scale, symbol and value maps for 20 elements in stream sediments and 2 elements in stream water, a current mineral inventory map, listings of field and analytical results and a statistical summary.

Copies of map material and listings of field observations, analytical data and methods, from which the open file was prepared are available for reference at:
