

1706 GSC OPEN FILE Coastal Geology of Northwest Devon Island and Northeast Bathurst Island, NWT; by S.B. McCann (ed. R.B. Taylor)

The open file includes two coastal maps (1:125,000) covering NTS sheets 69A and 59B, a report with detailed descriptions of the coastal units (on coding sheets) and two albums of oblique aerial photographs. The photo albums are only available for viewing at the Geological Survey offices in Dartmouth, NS and Ottawa. The field surveys were funded by Transport Canada under the Energy Transportation R&D Program.
