

LEGEND

—1000— Bathymetry (m) using Matthews' Tables (Carter, D.J.T., (1980), Echo-sounding correction tables).

Map compiled by R. Sparkes and D.J.W. Piper based on CHS chart NK 22-B with additions from small areas surveyed by (1) Ryan 1983, (2) Tucholke & Vogt (1986), (3) Uchupi et al (1988), (4) Cochanat & Ollier (1989), and Hughes-Clarke (1988), and modifications based on BIO cruises Hudson 74-021, Baffin 79-015, Quest 83-110, Hudson 84-021, and Hudson 87-008. Map of Tucholke and Vogt (1986) used only to show morphology: absolute depths corrected using BIO tracks. Map hand contoured and digitized using AutoCAD.
