MAP 1-1972
GEOLOGICAL SURVEY OF CANADA
FIELD ACTIVITIES, 1972

Explanation of data following project number, e.g. 1-2-9
Number of full-time staff - 1
Number of seasonal employees - 2
Time in field (weeks) - 9
Parentheses indicate seasonal party chief.

Up to 15 May, instructions for 180 scientific projects, with field components, have been issued. Only parties that are in the field for 4 weeks or longer are shown on this map - a total of 114 including 6 geophysical (aeromagnetic) contracts. Some parties cannot be plotted readily and these are listed under "General". In a few cases projects are not confirmed. Several projects are being run in cooperation with other federal departments, provincial authorities or private industry.

All enquiries should quote project numbers
