

Magnetic anomaly data

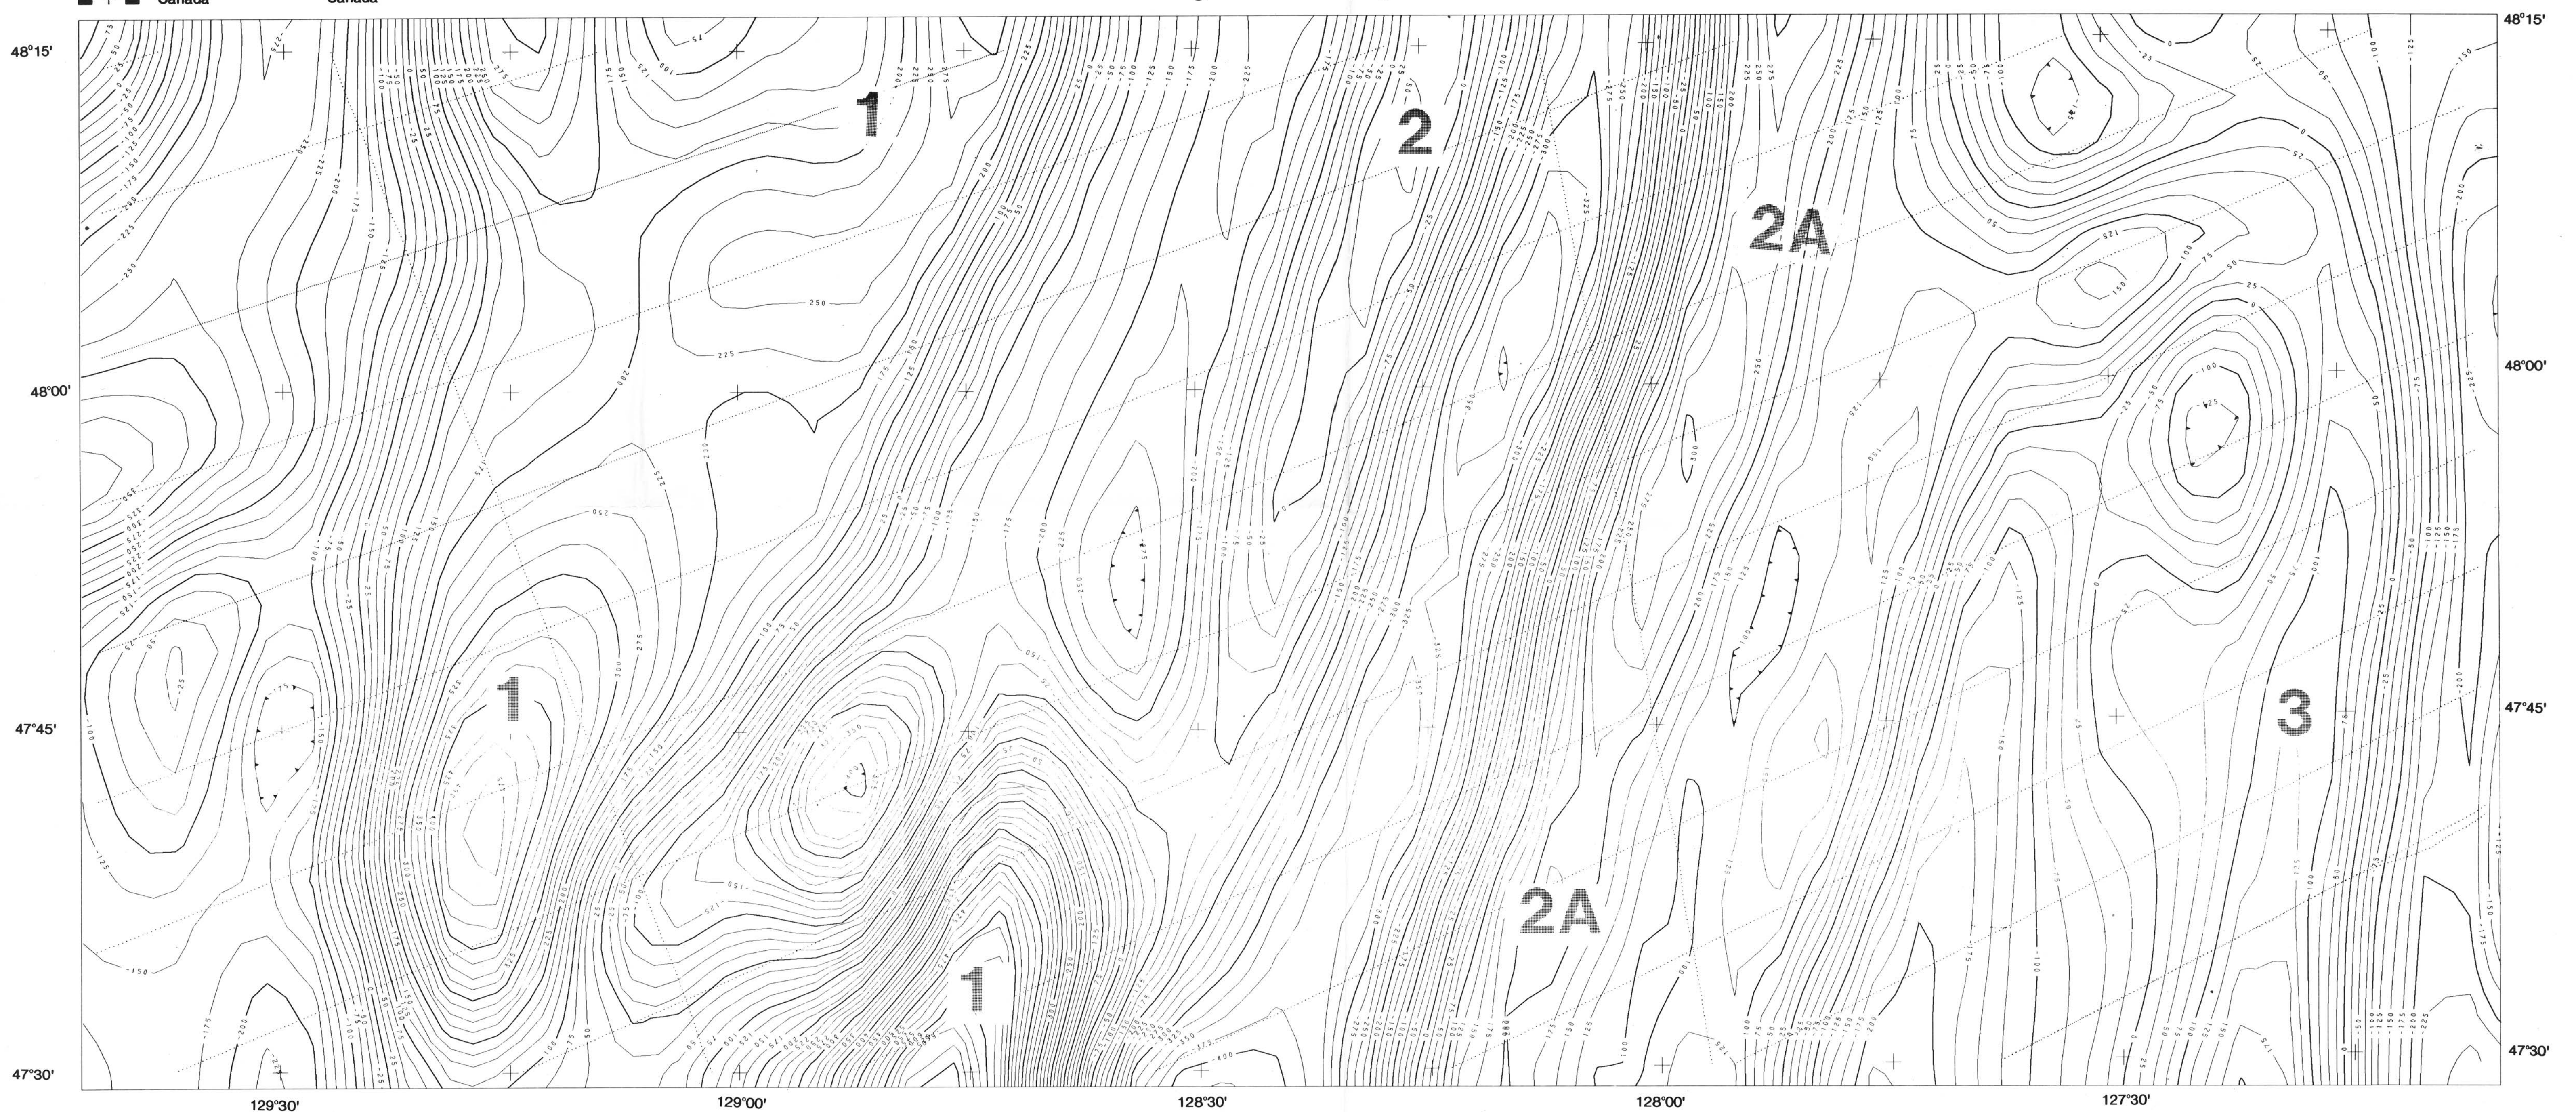

Figure 4. Magnetic Anomaly data contoured at 25 nT. Anomalies are identified in large grey numbers. Dots indicate location of survey lines. Scale is 1:250,000.

Free-air gravity

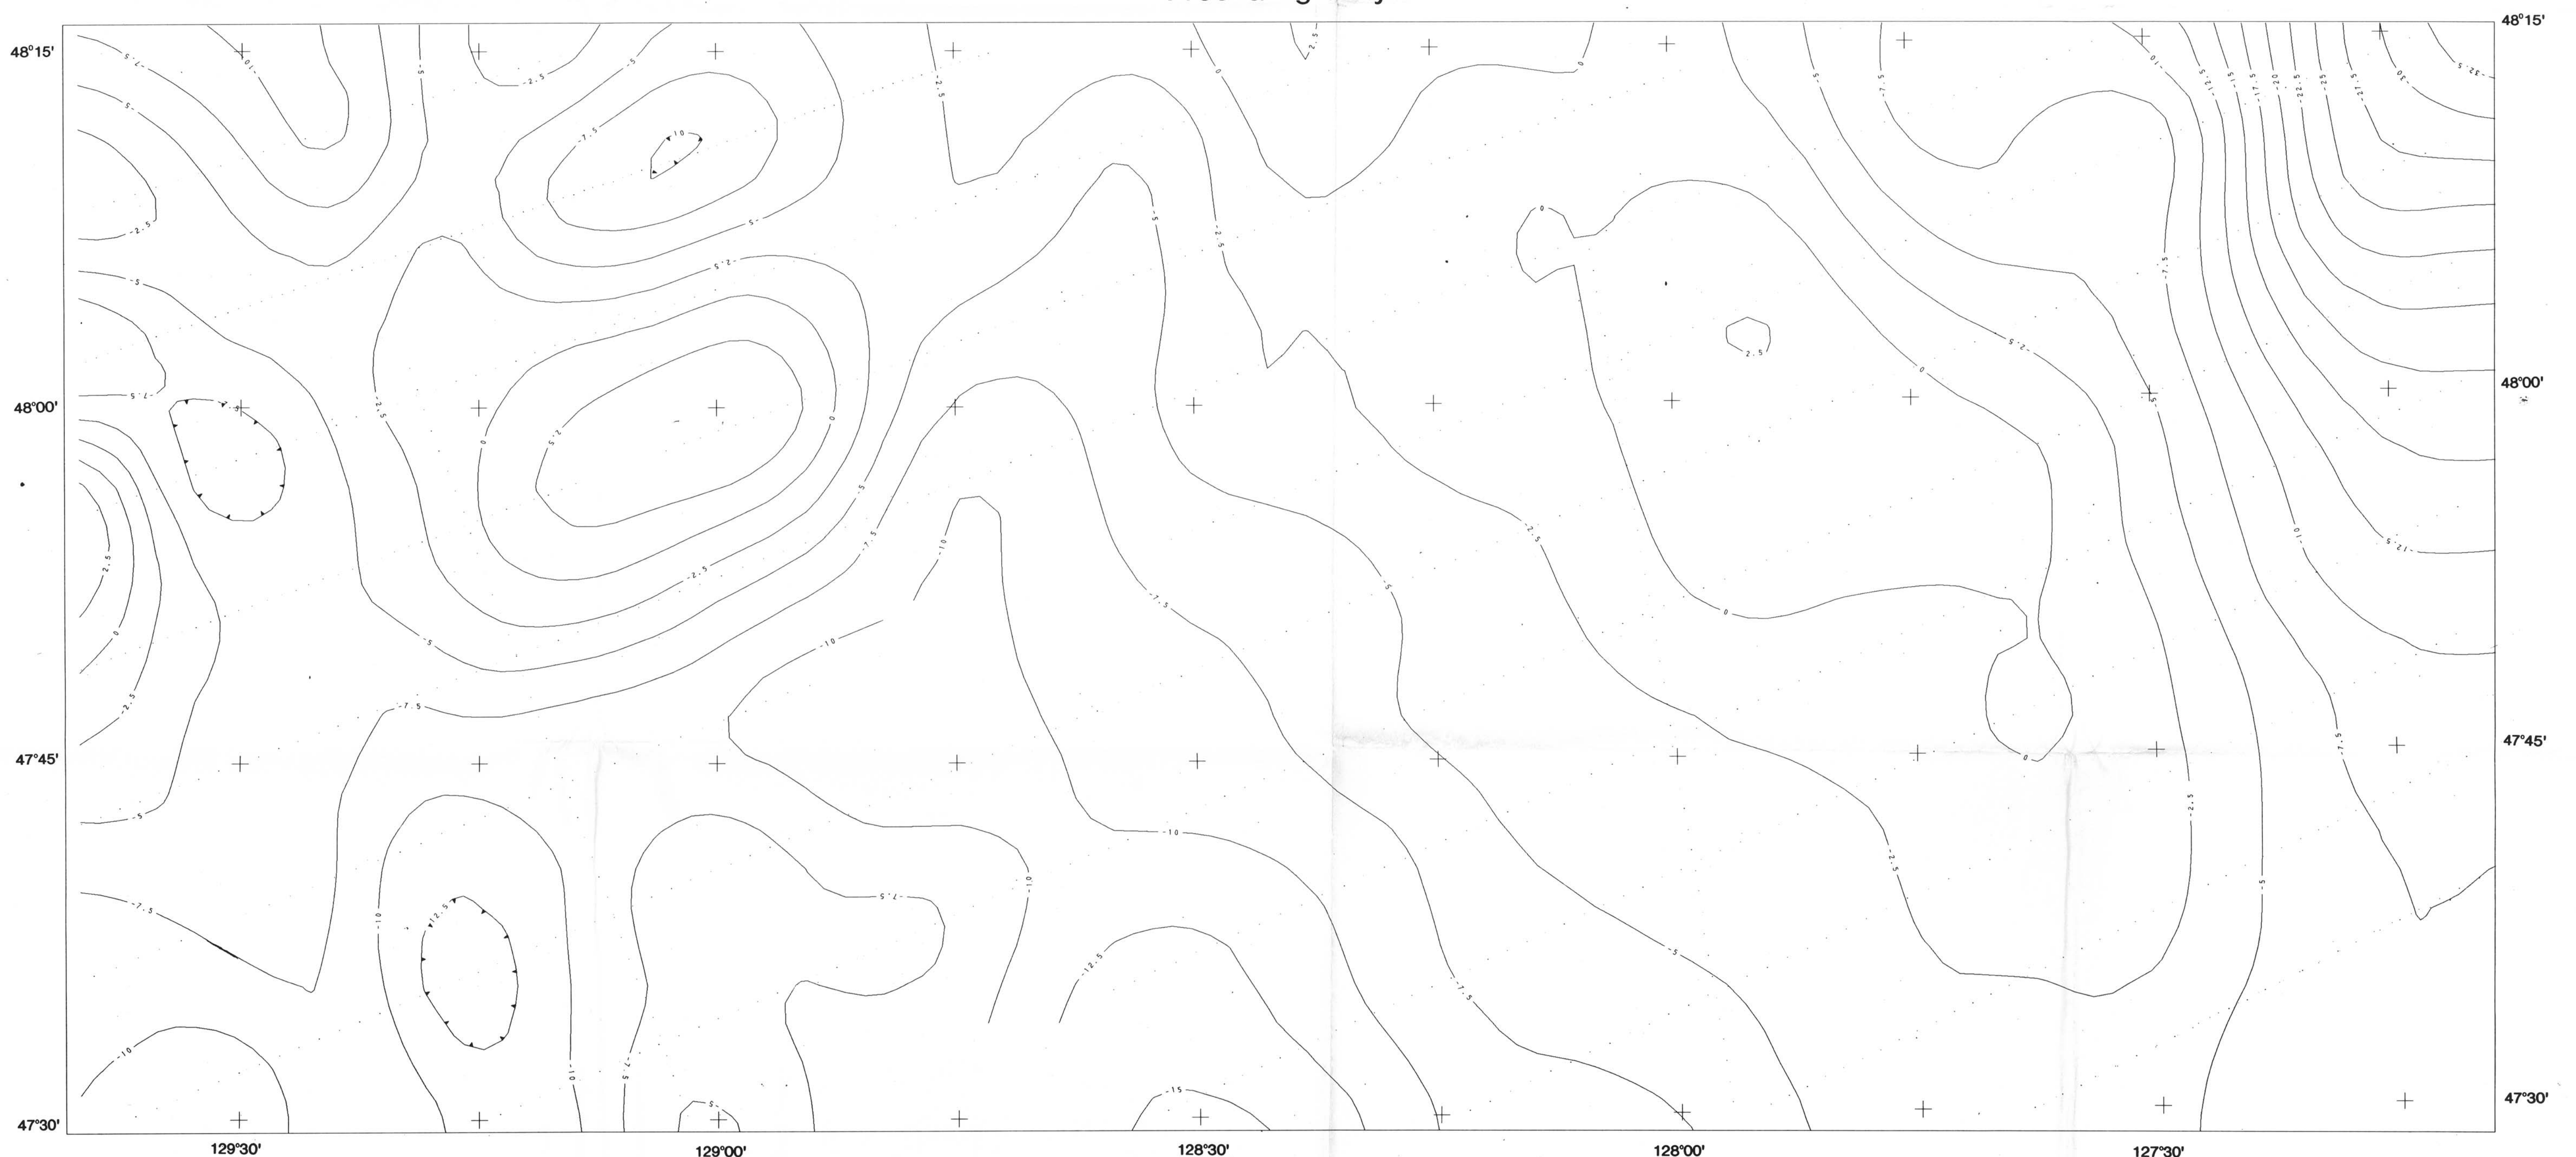

Figure 5. Free-air gravity anomaly contoured at 2.5 mGal. Dots indicate location of survey lines. Scale is 1:250,000.

0 10 20 30 40 50 km
