

**LEGEND**

- AGC track lines
- Bathymetry (metres)
- 1000— Isobath

Bathymetry (m) using Matthews' Tables (Carter, D.J.T., (1980). Echo-sounding corrections tables).  
 Map compiled by R. Sparkes and D.J.W. Piper based on CHS chart NK 22-B with additions from small areas surveyed by Tucholke & Vogt (1986) and modifications based on BIO cruises Hudson 73-011, Hudson 87-008.  
 Map of Tucholke and Vogt (1986) used only to show morphology; absolute depths corrected using BIO tracks.  
 Map hand contoured and digitized using AutoCAD.

Data type	Data source
A	Several AGC lines and Seabeam map (1986)
B	Sparse sounding lines From CHS charts
