

GEOLOGICAL SURVEY OF CANADA / COMMISSION GÉOLOGIQUE DU CANADA

TU BERGAKADEMIE FREIBERG

Department of Minerals and Energy / PAPIA NEW GUINEA

MARINE MINERALS TECHNOLOGY CENTER / OCEAN BASINS DIVISION

Bathymetry collected by Freiberg University of Mining and Technology, Cruise SO-94 /V/ Sonne (P.M. Herzog and M.D. Hannington, co-chief scientists)

Funding for the collection of bathymetric data was provided by the German Federal Ministry for Research and Technology (Grant No. 03G0904A). This work was also supported by the Department of the Interior's Mineral Institute Program administered by the U.S. Bureau of Mines through the Marine Minerals Technology Center under grant number G1145128-9711

Digital cartography by D. Everett, Geological Survey of Canada

Electrostatic plot produced by the Geological Survey of Canada

Any revisions or additional geological information known to the user would be welcomed by the Geological Survey of Canada

Base map digitized by the Geological Survey of Canada from maps published by the Royal Australian Survey Corps in 1965
