

DESCRIPTION NOTES

Topographic notes describing the terrain, elevation, and specific geological features observed in the field.

DESCRIPTION OF FORMATIONS

Detailed descriptions of geological formations including the Devonian Exploits Group, Silurian Botwood Group, and Fogo Harbour Formation.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.

Geological boundary (approximate)

Notes regarding geological boundaries, faults, and structural features shown on the map.
