STRATIGRAPHIC SECTIONS

Stratigraphic sections 1 through 10. Each section lists geological units with their corresponding symbols and detailed descriptions of their lithology and characteristics.

MAP 1874 SURFICIAL GEOLOGY LANGFORD CREEK ALBERTA

Scale 1:50 000 - Echelle 1:50 000. Includes information on digital base maps, copyright, and magnetic declination.

QUATERNARY

Legend table for Quaternary units. Lists units (e.g., MADE LAND, ECLIAN GLACIERS, COLLUVIAL AGON SEDIMENTS) and their descriptions. Includes a vertical scale on the left.

LEGEND

Not all colored units and symbols in legend necessary appear on this map. This legend is common to maps 1870A to 1916A.

Legend table for other geological units including Paleozoic to Early Tertiary Rock, Precambrian, and various geological boundaries. Includes symbols for faults and unconformities.

Magnetic declination table for the area, showing values for different years and locations.
