

Some of the data may be obtained from the Geological Survey of Canada, 3500 Steeles St. W., Coquitlam, B.C. V3K 6P5. For more information, contact the National Library of Science, 1100 St. James Street, Vancouver, B.C. V6B 1G1.

Geological compilation by G.C. Taylor, Geological Survey of Canada, 1982; G.G. Macdonald, A. Logan, K. Robertson and N. Massey, British Columbia Ministry of Energy, Mines and Petroleum Resources, 1986; A.V. Cloutier, Geological Survey of Canada, 1997, 2001.

Critical review by D.G. Macdonald, British Columbia Ministry of Energy, Mines and Petroleum Resources, 1986; A.V. Cloutier and M.P. Cook, 1998 and H. Gabrielle, 1999, Geological Survey of Canada.

Coordinated by L.S. Lane and A.V. Cloutier through the auspices of the Central Foreland NATMAP Project.

Geological cartography and data digitization by D.G. Macdonald, British Columbia Ministry of Energy, Mines and Petroleum Resources; R. Cullen, A.V. Cloutier and S. Henry, Geological Survey of Canada.

Digital image processing by A.V. Cloutier, Geological Survey of Canada.

Any omissions or additional geological information known to the user would be welcomed by the Geological Survey of Canada.

Base map at 1:1 000 000 scale, published by Surveys and Mapping Branch in 1971.

Elevation in metres above sea level.

Copies of the topographical edition of this map may be obtained from the Canada Map Office, Natural Resources Canada, Ottawa, Ontario, K1A 0G8.

This 1:500 000 scale map is part of the Central Foreland Project and is plotted on the International Map of the World (IMW) base. Bedrock geology is one parameter being published in the Central Foreland Project.
