

LEGEND

Legend table with columns for geological units (e.g., Paleozoic, Mesoproterozoic, Paleoproterozoic, Archean, Early Proterozoic) and their corresponding symbols and colors. Includes descriptions for various rock types and geological boundaries.

LEGENDE

Legend table in French corresponding to the English legend, detailing geological units and their symbols.

DESCRIPTIVE NOTES

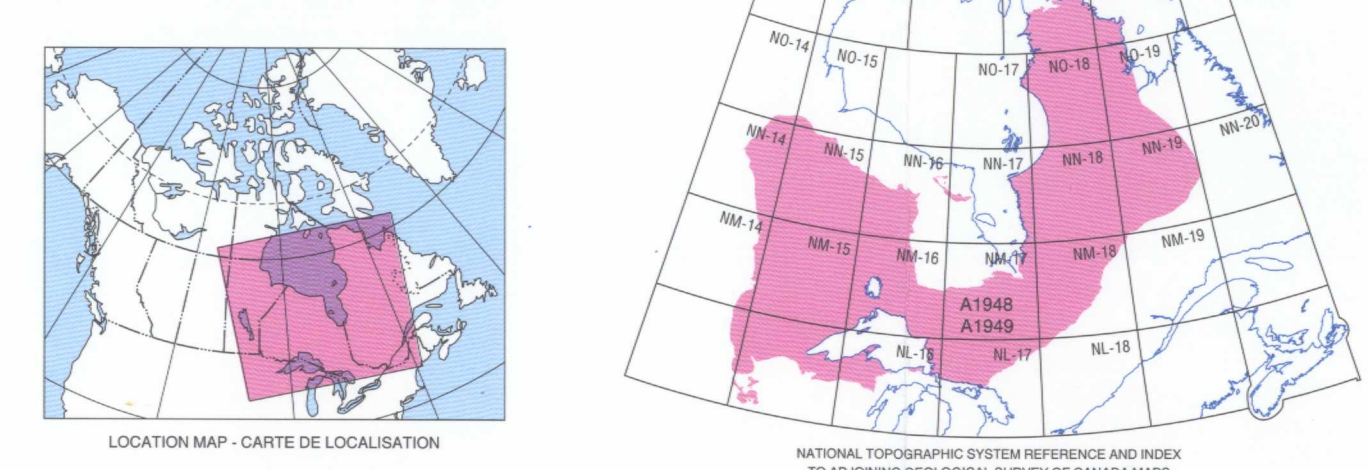

MAP PREPARATION: The geology is shown on a 1:2 000 000 scale... The lithotectonic map was prepared from information published and unpublished sources... REFERENCES: A list of references including geological maps and scientific publications.

REFERENCES

References section listing various geological maps and scientific publications, including works by authors like Armstrong, L., and others, with their respective titles and dates.

NOTES DESCRIPTIVES

PREPARATION DE LA CARTE: La géologie est montrée sur une échelle de 1:2 000 000... La carte lithotectonique a été préparée à partir de renseignements publiés et non publiés... RÉFÉRENCES: A list of references in French.

Detailed text boxes providing information about the map's preparation, including the geologist's name (F.D. Wood), the division (Division de l'information géoscientifique), and the date of the map (1984).

Map title block containing the title 'LITHOTECTONIC MAP OF THE SUPERIOR PROVINCE', the scale 'Scale 1:2 000 000 - Echelle 1:2 000 000', and the logos of the Geological Survey of Canada and the Commission géologique du Québec.
