

Multi-Element Stream Sediment Data Plot

PROPORTIONAL PIE CHART
FOR AU, CR, TH, U, and LA

Pie chart integer values are assigned on the basis of percentile ranking of element data for individual sites (see text).

Scale 1:400 000 - Échelle 1/400 000

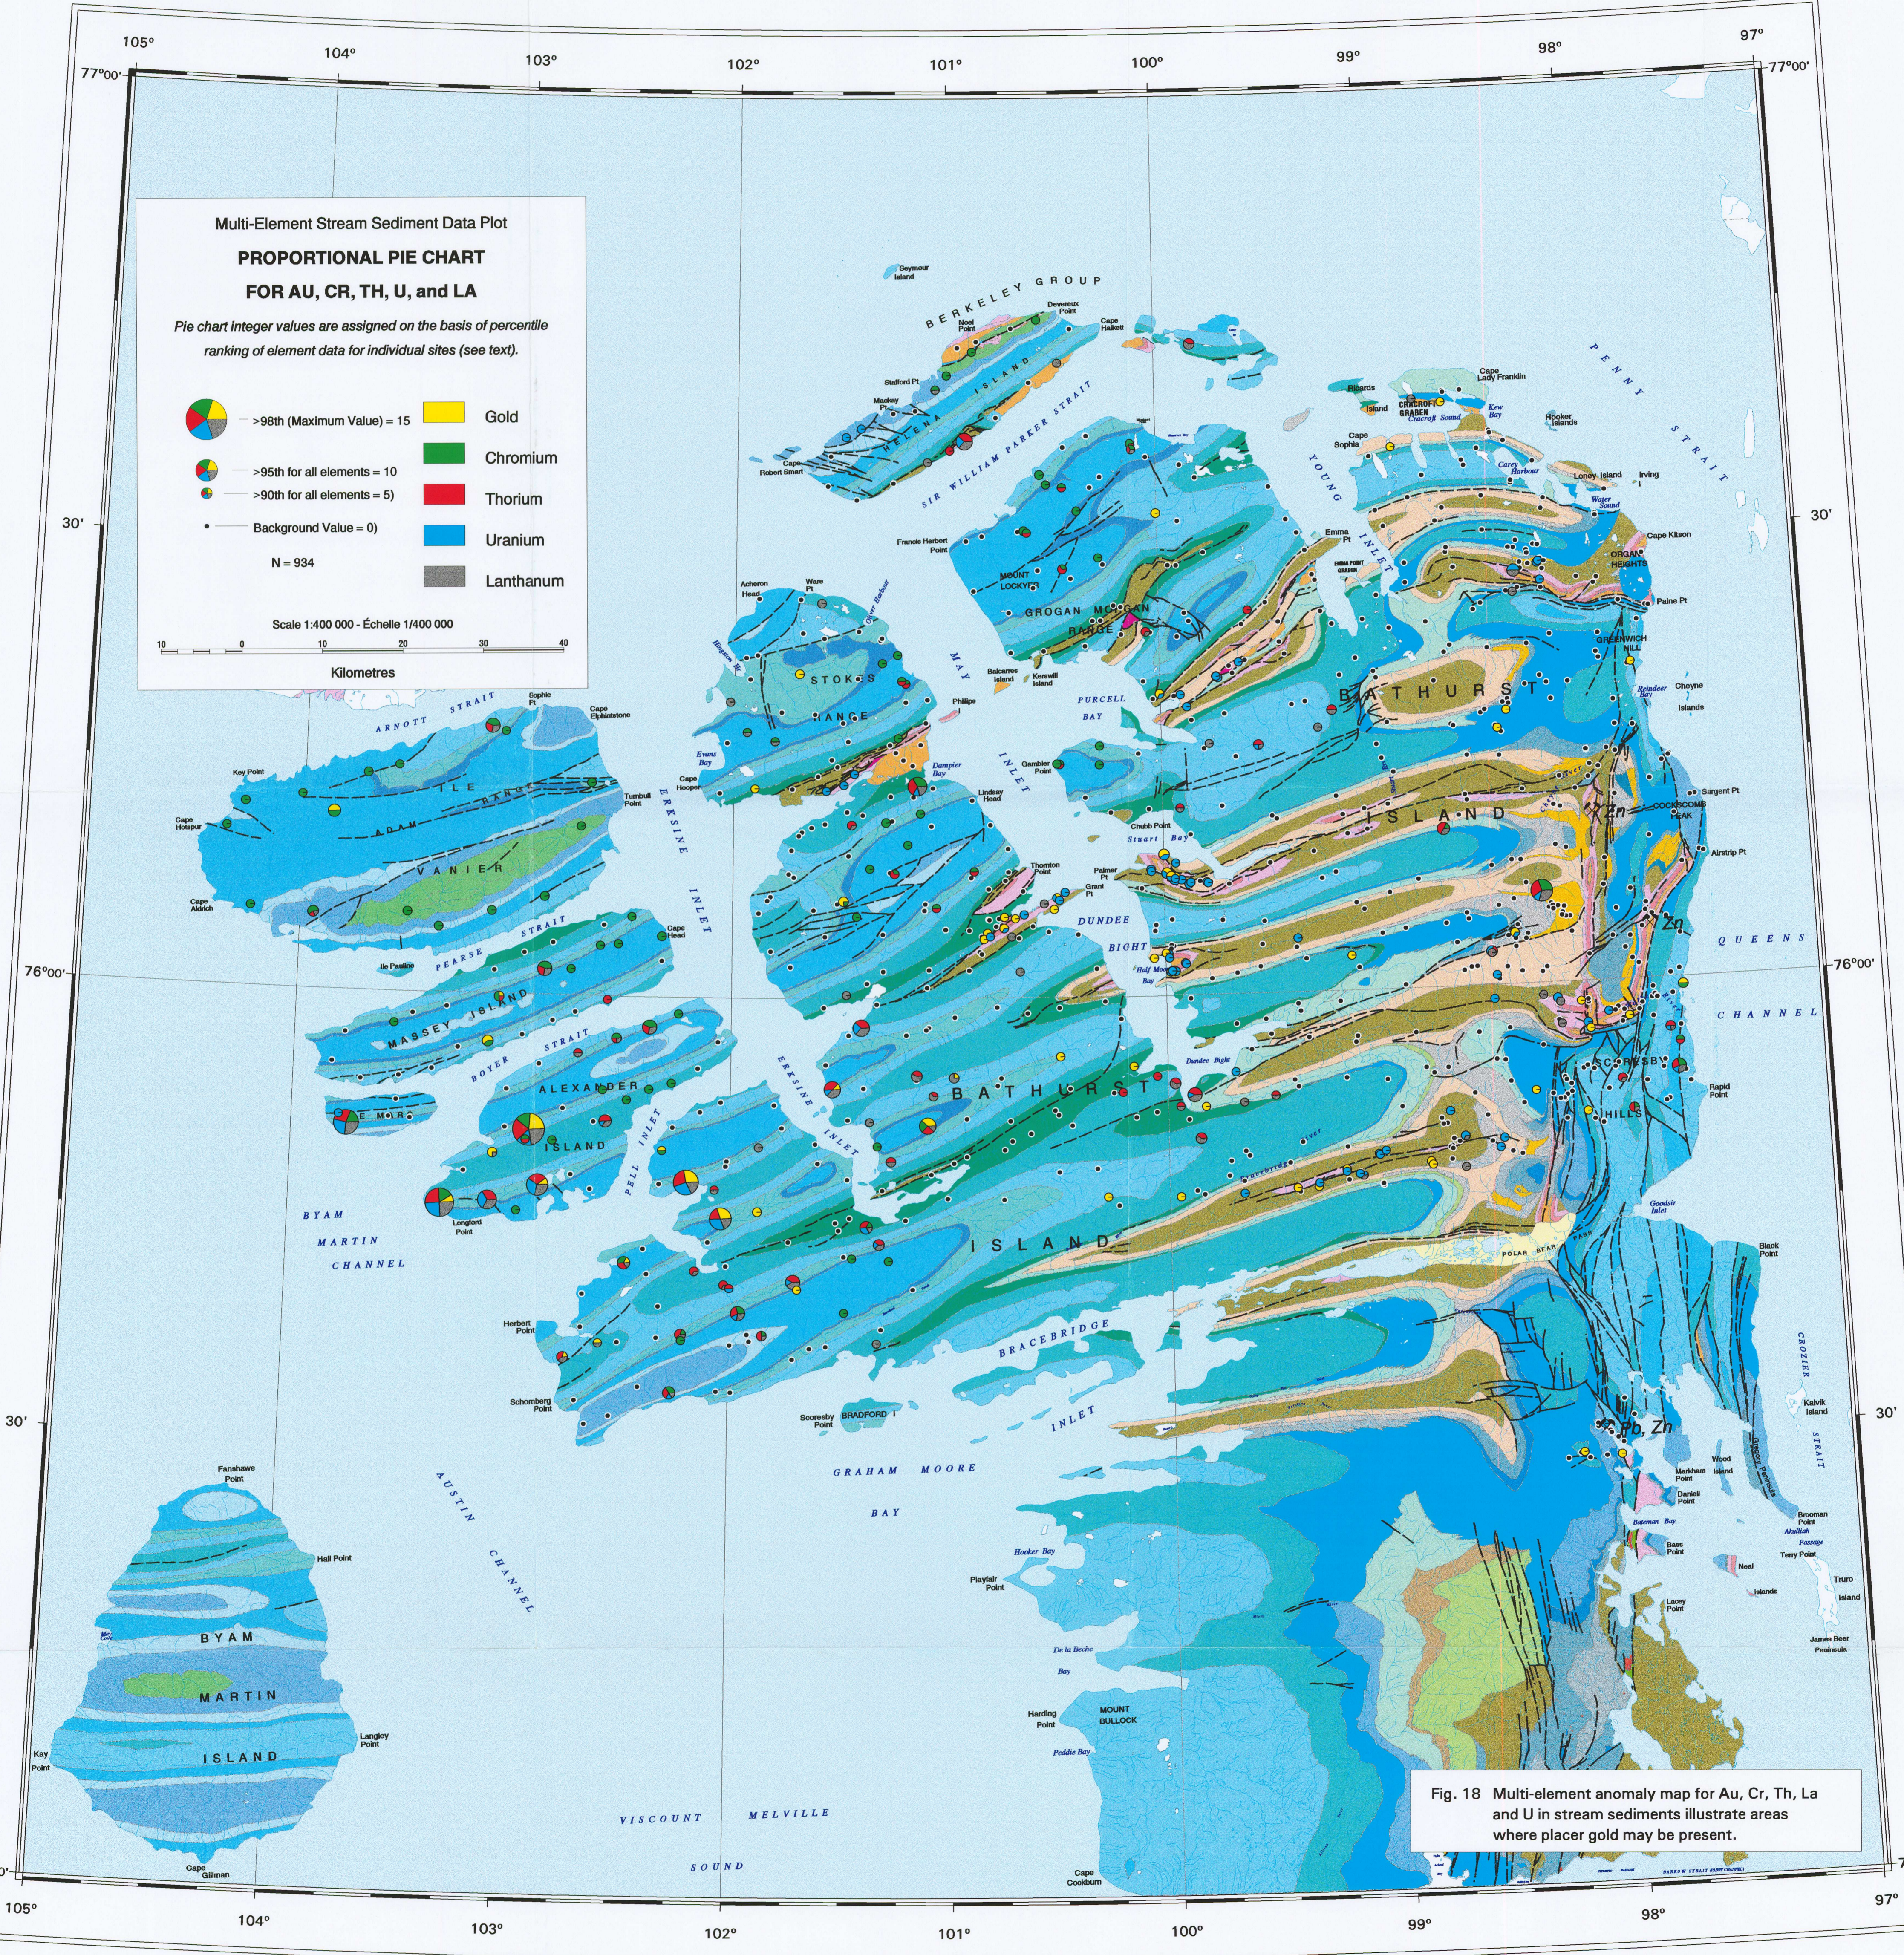

Fig. 18 Multi-element anomaly map for Au, Cr, Th, La and U in stream sediments illustrate areas where placer gold may be present.
