

INTRODUCTION

The Stellarton Basin is located on the north-western shore of the Strait of Canso, Nova Scotia. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains.

DESCRIPTIVE NOTES

The Stellarton Basin is located on the north-western shore of the Strait of Canso, Nova Scotia. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains.

STRUCTURE

The Stellarton Basin is located on the north-western shore of the Strait of Canso, Nova Scotia. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains.

EVOLUTION OF THE BASIN

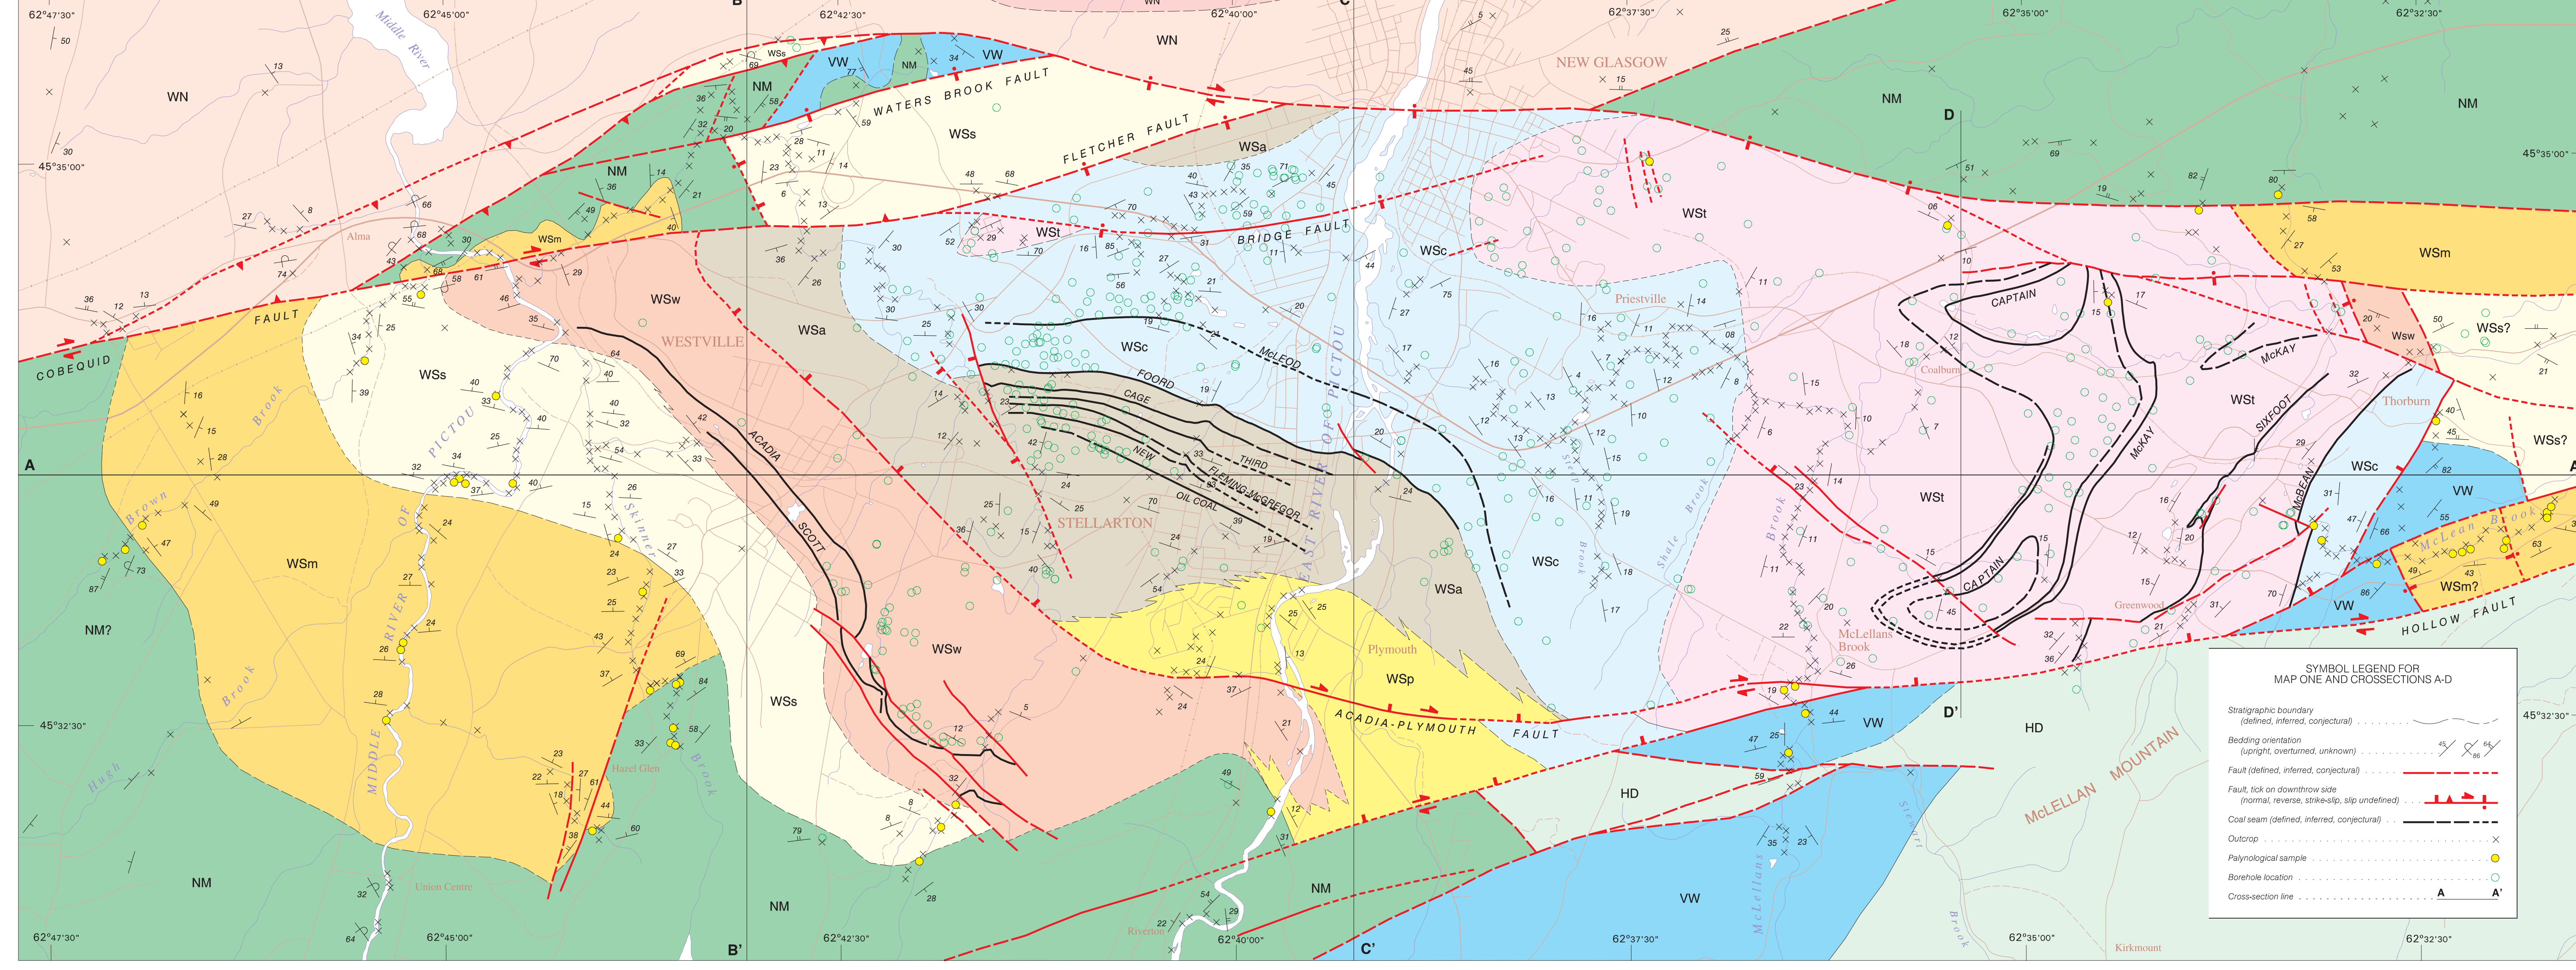

The Stellarton Basin is located on the north-western shore of the Strait of Canso, Nova Scotia. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains.

ACKNOWLEDGMENTS

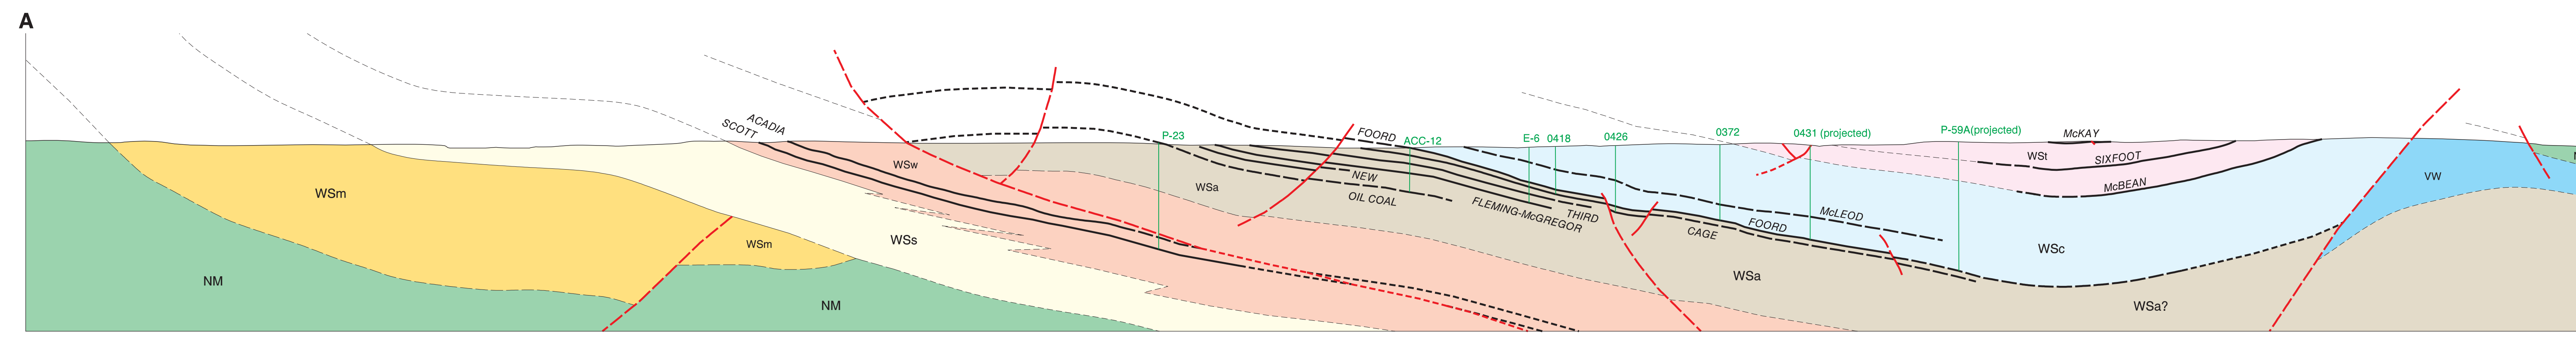

The Stellarton Basin is located on the north-western shore of the Strait of Canso, Nova Scotia. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains. The basin is bounded to the north by the Cobequid Mountains, to the east by the Westville Mountains, to the south by the Westville Mountains, and to the west by the Westville Mountains.
