

HEALEY LAKE - ARTILLERY LAKE NORTHWEST TERRITORIES - NUUNAVUT. Scale 1:250 000 - Echelle 1:250 000. Includes a small inset map of the Northwest Territories and Nunavut.

INTRODUCTION

The Healey Lake - Artillery Lake area occurs in the eastern part of the Archaean Slave Province and is situated between the Paleoproterozoic rocks of the Thelon Tectonic Zone (Fig. 1) and the Paleoproterozoic rocks of the Slave Province (Fig. 1). The area is bounded to the north by the Paleoproterozoic rocks of the Thelon Tectonic Zone (Fig. 1) and to the south by the Paleoproterozoic rocks of the Slave Province (Fig. 1).

DESCRIPTION OF THE AREA

The Healey Lake - Artillery Lake area is situated between the Paleoproterozoic rocks of the Thelon Tectonic Zone (Fig. 1) and the Paleoproterozoic rocks of the Slave Province (Fig. 1). The area is bounded to the north by the Paleoproterozoic rocks of the Thelon Tectonic Zone (Fig. 1) and to the south by the Paleoproterozoic rocks of the Slave Province (Fig. 1).

DESCRIPTIVE NOTES

The Healey Lake - Artillery Lake area is situated between the Paleoproterozoic rocks of the Thelon Tectonic Zone (Fig. 1) and the Paleoproterozoic rocks of the Slave Province (Fig. 1). The area is bounded to the north by the Paleoproterozoic rocks of the Thelon Tectonic Zone (Fig. 1) and to the south by the Paleoproterozoic rocks of the Slave Province (Fig. 1).

ACKNOWLEDGMENTS

Maple & Lambert kindly provided data from the compilation of the Back River volcanic complex. The compilation of Back River volcanic complex is available in the report of Maple & Lambert (1987). The compilation of Back River volcanic complex is available in the report of Maple & Lambert (1987).
