

Table listing oil and gas fields across provinces and territories: Alberta, Saskatchewan, Manitoba, Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island, Newfoundland and Labrador, Yukon, Northwest Territories, Nunavut.

Table listing active mines across provinces and territories, categorized by mineral type: Coal, Iron, Gold, Silver, Copper, Nickel, Zinc, Lead, Uranium, Potash, etc.

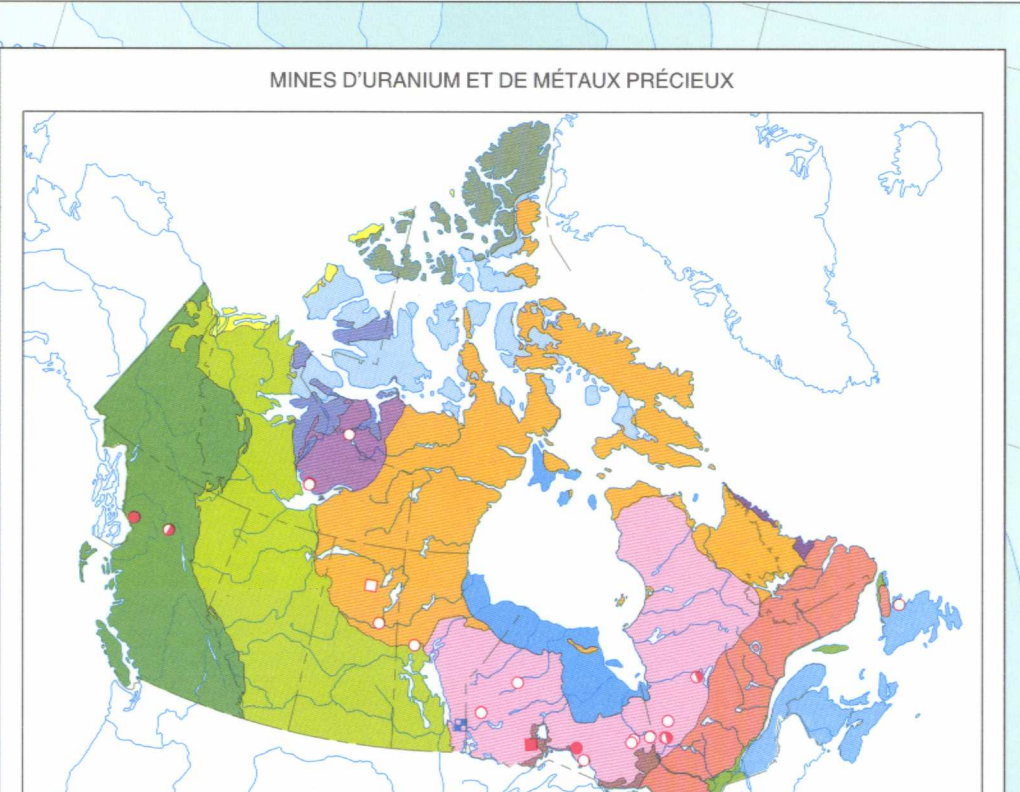

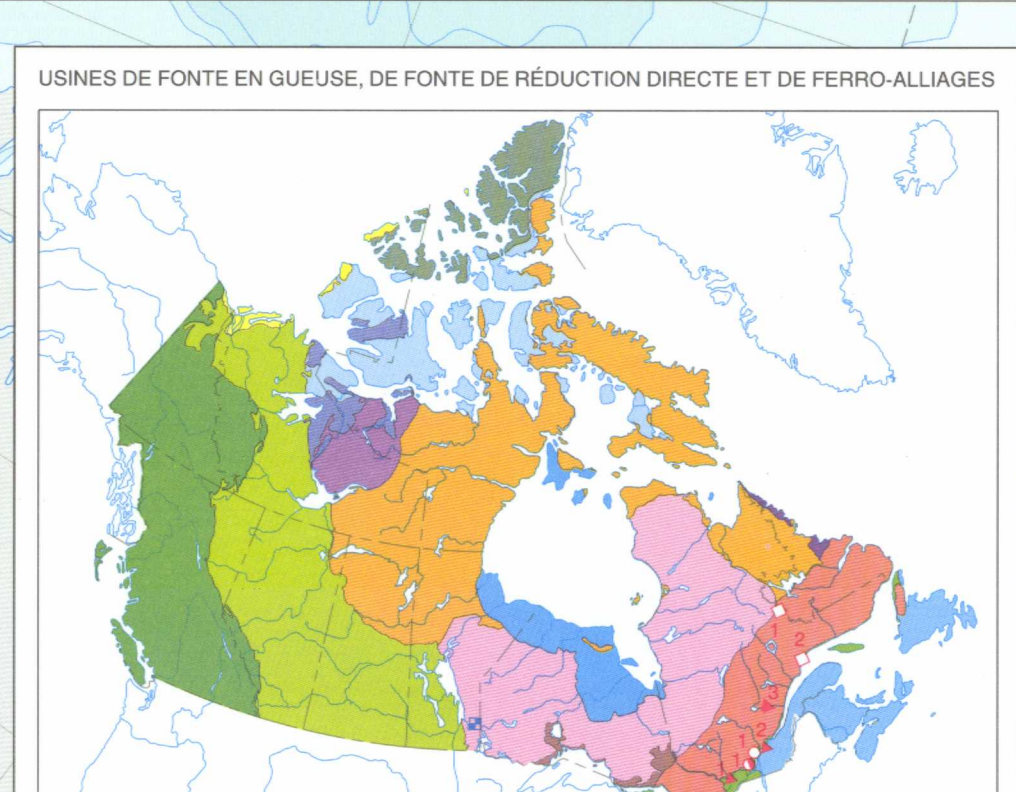

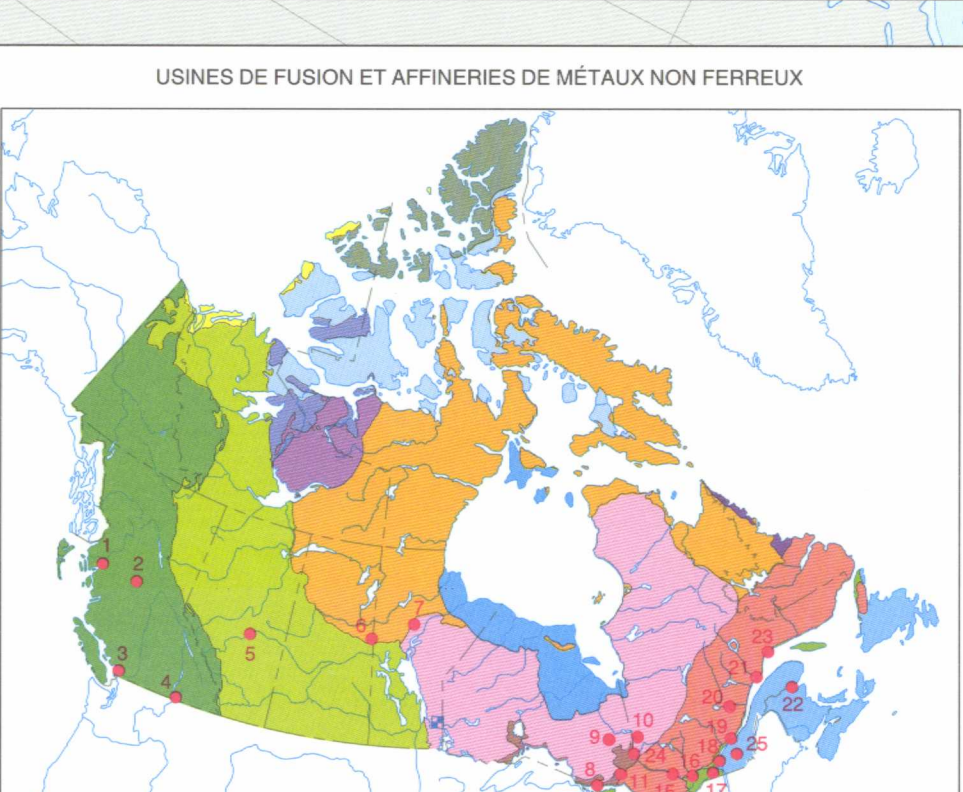

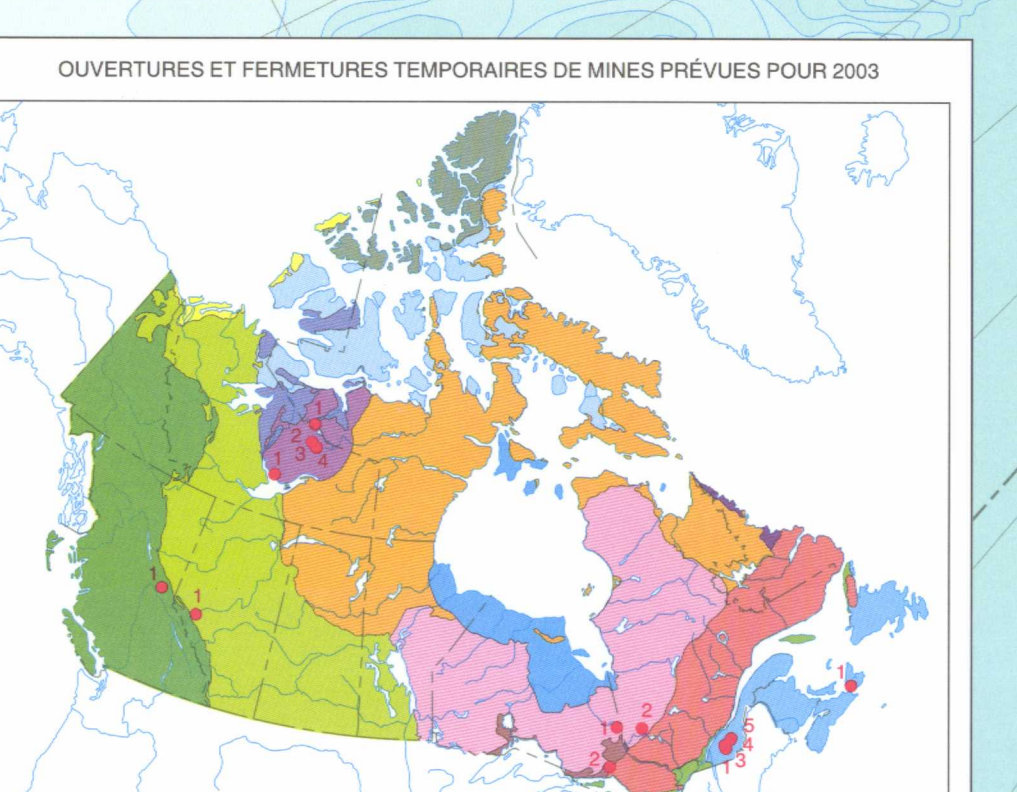

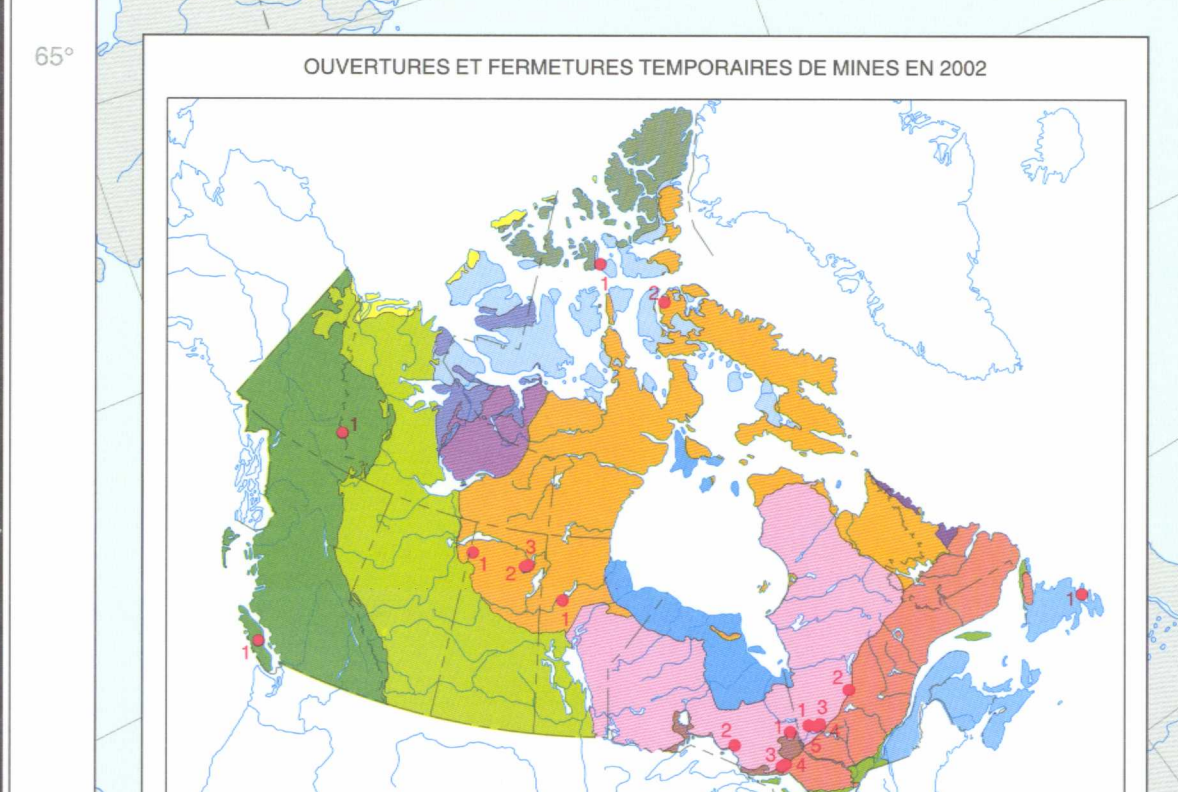

Table listing temporary mine openings and closures in 2002 by province/territory.

Table listing temporary mine openings and closures for 2003 by province/territory.

Table listing non-ferrous metal smelters and refineries by province/territory.

Table listing iron and steel mills by province/territory.

Table listing uranium and precious metal mines by province/territory.

Table listing temporary mine openings and closures in 2002 by province/territory (continued).

Table listing temporary mine openings and closures for 2003 by province/territory (continued).

Table listing non-ferrous metal smelters and refineries by province/territory (continued).

Table listing iron and steel mills by province/territory (continued).

Table listing uranium and precious metal mines by province/territory (continued).

Table listing temporary mine openings and closures in 2002 by province/territory (continued).

Table listing temporary mine openings and closures for 2003 by province/territory (continued).

Table listing non-ferrous metal smelters and refineries by province/territory (continued).

Table listing iron and steel mills by province/territory (continued).

Table listing uranium and precious metal mines by province/territory (continued).

Table listing temporary mine openings and closures in 2002 by province/territory (continued).

Table listing temporary mine openings and closures for 2003 by province/territory (continued).

Table listing non-ferrous metal smelters and refineries by province/territory (continued).

Table listing iron and steel mills by province/territory (continued).

Table listing uranium and precious metal mines by province/territory (continued).

Table listing temporary mine openings and closures in 2002 by province/territory (continued).

Table listing temporary mine openings and closures for 2003 by province/territory (continued).

Table listing non-ferrous metal smelters and refineries by province/territory (continued).

Table listing iron and steel mills by province/territory (continued).

Table listing uranium and precious metal mines by province/territory (continued).

Table showing mineral production in Canada in 2002, categorized by metal type (Metallurgiques, Non-métallurgiques, Construction, Combustibles).

Table showing constant dollar production in Canada from 1970 to 2002, categorized by province/territory.

Table showing mineral production in Canada by province/territory in 2002.

Table showing the number of important mines in Canada by province/territory in 2002.

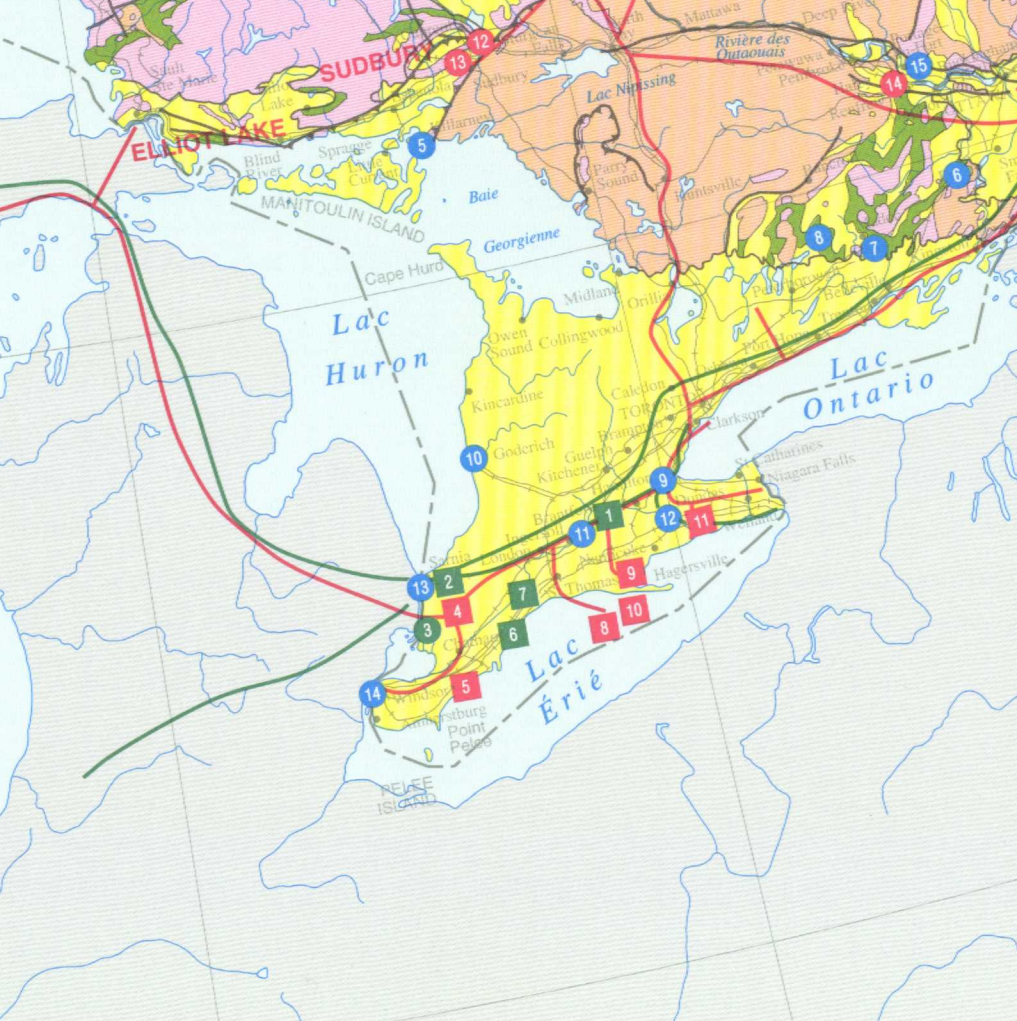

Table showing geological entities (rocks, faults, etc.) with a legend.

Table showing geological entities (rocks, faults, etc.) with a legend.

Table showing geological entities (rocks, faults, etc.) with a legend.
