GENERAL INDEX

TO

REPORTS

1885-1906.

COMPILED BY

F. J. NICOLAS.

OTTAWA
GOVERNMENT PRINTING BUREAU
1908

No. 1000

1944

To the Honourable

WILLIAM TEMPLEMAN, M.P.,

Minister of Mines.

SIR,—I have the honour to submit the General Index, embracing the New Series of Reports of the Survey (1885–1906).

The observations of the Survey embodied in its reports accumulate rapidly and unless a general index is prepared from time to time valuable information becomes buried under a mass of succeeding publications to be lost sight of by the public or only to be found by long and diligent search.

The material collected by the Survey from 1847 to 1863 was condensed and systematized in the *Geology of Canada* published in 1863, which was virtually a General Report of Progress to date.

In 1897, under Dr. DAWSON's instructions, Mr. D. B. DOWLING prepared a general index covering the Survey's publications from the 1863 report to the end of the Old Series, 1884 report, inclusive. The New Series, which commenced with the 1885 report, contains individual indexes, and consequently, for some years, did not call for a general index, but by 1904 the number issued had become so large that Dr. BELL commissioned Mr. FRANK NICOLAS to compile a full index to these reports. This heavy task was accomplished in his time after office hours. The original intention was to exclude minor references to palaeontology, botany and glaciation but at the request of officers of the Survey especially interested in such sections of geology, the author extended his work to cover these subjects, without extra remuneration. This was only possible through the help of the officers especially interested, which the author fully acknowledges.

The work was undertaken in May, 1904, and completed in May, 1906. In view of the conditions under which the work was accomplished, the accuracy required, and the magnitude of the task—about 180,000 references are included—it is evident that the author has displayed commendable zeal and expedition.

It is believed that this Index will materially aid the public in readily obtaining desired information from the New Series reports.

This, combined with the former index (1863–1884), forms a complete index to the English edition of the Survey publications. Lists of these publications are issued from time to time and may be obtained by anyone, on application to the Survey.

I have the honour to be, Sir,

Your obedient servant,

R. W. BROCK,
Acting Director.

OTTAWA, January, 1908.

A. P. Low, LL.D., &c.,

Deputy Minister and Director,

Geological Survey of Canada.

DEAR SIR,—I have the honour to submit, according to the contract originally made by Dr. R. BELL, and subsequently endorsed by you, a General Index to the "Annual" volumes, sixteen in number, published by the Geological Survey since 1884. These volumes, though nominally "Annual," sometimes include the reports of two years; they contain most of the principal publications issued by the Survey during the last twenty-two years.

It was not until a large portion of this work had been completed that Parliament passed a Bill constituting the new provinces of Alberta and Saskatchewan and cancelling the territories of Assiniboia and Athabaska. The change naturally entailed a great amount of work in bringing the references to conform to the new boundaries; had it not been for these necessary changes this Index would have been published much earlier.

I take this opportunity of acknowledging that without the help of all the officers of the Geological Survey this work could never have attained accuracy. That help has been given, in every case, unstintingly. To the Palæontologists of the Survey, and especially to Dr. J. F. WHITEAVES, who has revised every galley, are due the excellent fossil and zoological references included in the work: and similar acknowledgments are due to Prof. J. MACOUN and Mr. J. M. MACOUN for the careful manner in which they have checked the botanical and ornithological lists.

As regards the other officers of the Department there is not one who has not, from time to time, given me valuable help, but I must tender special thanks to Mr. D. B. DOWLING, whose intimate knowledge of the Grass River district and the coal areas of the Rocky mountains, together with his previous experience gained in indexing the Geological Survey reports from 1863 to 1884, has added much to the usefulness of this work; to Mr. HUGH FLETCHER, whose lively interest in the work from its initiation and whose many years of exploration in Nova Scotia enabled me to follow the reports of that province much more ably than could otherwise have been possible; to Dr. R. W. ELLS, who took an immense amount of trouble in elucidating many of the geographical and geological features of New Brunswick and Quebec; to Mr. W. MCINNES, to whom the correct locating of the innumerable streams and lakes in the Rainy River and southern Thunder Bay districts is mainly due; and to yourself, who, though overburdened with the cares of Directorship, never grudged the time to adequately discuss references to northern Quebec, the unpronounceable names of Labrador and the position of numerous questionable localities in Franklin.

The geographical names of this Dominion had, in many cases, become so distorted by local use or by careless authors and map-makers, that Parliament appointed, in 1898, a Geographic Board, to give decisions on disputed nomenclature. In order that this General Index should be made as far as possible a standard work in regard to the correct

spelling of the names of Canadian localities, Mr. JAMES WHITE, Dominion Geographer, a member of the Board, carefully revised the first three hundred pages and, but for the necessity of his visit to England, would have continued to check the entire work. In the balance of the Index the spelling of the names is in accord with the decisions of the Board, so far as they were published up to the time of going to press.

A special point has been made throughout the volume, of supplying, whenever possible, the full initials of any person to whom reference has been made. In connexion with this endeavour, over one thousand letters have been written asking for information and all but seven have elicited replies. For information of this description I am especially indebted to Mr. C. C. CHIPMAN, Commissioner of the Hudson's Bay Company at Winnipeg.

As to typographical errors the compiler believes that the Index will compare favourably with any similar work published in Canada and for this he tenders his grateful thanks to his assistant Miss ETHEL WHITE, whose vigilance and untiring efforts have very largely contributed to make this work of reference worthy of the reports of which it endeavours to form a synopsis.

Your obedient servant,

FRANK NICOLAS.

OTTAWA, January, 1908.

ABBREVIATIONS.

- Alta.** Province of Alberta, (including the former territory of Alberta and the western portions of the former territories of Saskatchewan, Assiniboia and Athabaska).
- B. C.** Province of British Columbia.
- C. B.** Cape Breton.
- C.P.R.** Canadian Pacific Railway.
- Frank.** Provisional district of Franklin*.
- G.T.R.** Grand Trunk Railway.
- H.B.C.** Hudson's Bay Company.
- I.C.R.** Intercolonial Railway.
- Kee.** Provisional district of Keewatin*.
- Lab.** Labrador and the provisional district of Ungava*.
- Mack.** Provisional district of Mackenzie*.
- Man.** Province of Manitoba.
- N. B.** Province of New Brunswick.
- N. S.** Province of Nova Scotia.
- Ont.** Province of Ontario.
- P.E.I.** Province of Prince Edward Island.
- Q.C.I.** Queen Charlotte islands.
- Que.** Province of Quebec.
- R. M.** Rocky mountains.
- Sask.** Province of Saskatchewan, including the eastern portions of former territories of Saskatchewan, Assiniboia and Athabaska.
- V. I.** Vancouver island.
- Ykn.** Territory of Yukon.

The above divisions have been chosen in consultation with the Dominion Geographer as being, on account of general usage, the most suitable. According, however, to Act of Parliament, Keewatin, Ungava, Mackenzie and Franklin have no legal existence, the whole being included under the general term North-west Territories, while Labrador includes only that portion of the Atlantic coast under the jurisdiction of Newfoundland.

* As defined by Order-in-Council.

NOTES.

With the exception of the new provinces of Alberta and Saskatchewan, and the districts of Ungava and Labrador (which are included under the abbreviation "Lab."), the provinces, provisional districts and territory mentioned in this Index are those coloured in the map of the Dominion of Canada published by the Department of the Interior in 1903.

Throughout this work all localities in Ottawa county, Quebec, have been referred either to "Labelle county" or to "Wright county." These divisions are not "counties" in the accepted meaning of the term, but are electoral divisions for the Federal Parliament and are Judicial divisions for Provincial Government purposes.

For purposes of more exact reference certain areal names are used in the Index that are not the names of political divisions but refer to areas covered by published geological map-sheets.

These are :—

Grass River dist.—comprising the area to the northwest of Lake Winnipeg, lying between the lower Saskatchewan river and the Churchill river and between Cumberland lake and the Nelson river.

Manitou dist.—comprising that part of Rainy River district to the east of Lake of the Woods and north of Rainy lake extending from Hawk Lake station to Taché station on the Canadian Pacific railway and from the foot of Manitou lake to a few miles north of the railway.

Ignace dist.—comprising a rectangular part of Rainy Lake district cut diagonally by the Canadian Pacific railway between Taché and English River stations and extending about twenty miles to the north and south of the railway.

Seine River dist.—comprising the part of Rainy River district lying to the north of Hunter island and to the south of the last named area and extending from the boundary of Thunder Bay district westerly nearly to Rainy lake.

Shebandowan dist.—comprising the part of Thunder Bay district lying between its western boundary and Thunder bay and extending north and south between Carlstadt station and Port Arthur.

Fort Stikine. See Fort Dionysius.			Indian tribes living near....	202, 203 B	III
Fort Timiskaming, TIMISKAMING			Latitude of.....	44 R	III
LAKE, QUE.....	12 I	X	Main terrace of.....	8 B	XIV
Fort Tongass, DIXON ENTRANCE, AL-			Nasina series of.....	13 B	XIV
ASKA.....	21 B	III	Notes on, by McConnell.....	140, 141 D	IV
Fort Vermilion. See Vermilion.			Rocks between, and Indian river..	44 A	XIII
Fort William, KAMINISTIKWIA RIVER,			Fortymile series.....	12 B	XIV
ONT.			Forty-nine creek, KOOTENAY RIVER,		
Altitude of.....	123 E	IV	B.C.		
Mission at.....	8 H	X	Copper on, and near.....	10 A	IV
Old H. B. C. post at.....	21 H	III		58 R	V
Fort Wrath, TIMISKAMING LAKE,			Gold mining on.....	133 R	III
QUE.....	13 I	X		178 s	VI
Fort Wrigley, MACKENZIE RIVER,				61 B	III
MACK.			Magnetite on.....	46 SS	IV
Date of ice-breaking at.....	88 D	IV	Minor refs. to.....	19, 22 B	IV
Devonian opposite.....	15 D	IV	Forty-ninth parallel.		
Map of country near.....	With Vol.	IV	See also International Boundary.		
Meteorological observations on.....	162 D	IV	Altitudes on, and near.....	6 R	III
Notes on, by McConnell.....	90 D	IV		147, 148 E	IV
Fort Yukon, PORCUPINE RIVER, AL-			Country near, examined by Dawson,		
ASKA.			1874.....	5 C	I
Climate of; barley grown at.....	23 B	III	Cretaceous on, and near.....	21 B	I
Notes on, by McConnell.....	134 D	IV		42 C	I
historical.....	28, 138, 140 B	III	Geology of Rocky mtns. near.....	37 B	I
Statistics re Indians at.....	206 B	III	Glaciation on.....	92 E	IV
Fortification agate. See Agate.			Orography of, ref. to Gibbs' paper		
Fortin, Joseph N. See next ref.			on.....	14 B	I
Fortin and Gravel mica mine,			Pierre shales of.....	24 C	I
HULL TP., WRIGHT CO., QUE.....	124, 131 J	XII	Refs. to Daly's and Macoun's work		
Fortineau bay, LAB.....	116 A	VII	on.....	6 A	XIV
Fortune lake, FRONTENAC CO., ONT.				13 A	XV
	48, 49 J	XIV		4, 5 AA	XV
Fortune pt., VAUDREUIL CO., QUE. . .	83 J	XII	Summary Reports, by Daly, on		
Forty pup, DUBLIN GULCH, HAGGART			Geology of W. part of:—		
CREEK, KLONDIKE DIST., YKN.....	29, 38 A	XVI	1901.....	39-51 A	XIV
Forty Thieves claim, BRIDGE			1902.....	138-149 A	XV
RIVER, LILLOOET DIST., B.C.....	123 A	X	1903.....	91-100 AA	XV
Fortymile, N. OF DAWSON, YKN. 139,	140 D	IV	1904.....	91-100 A	XVI
	6, 12 B	XIV	Summary Reports, by Macoun, on		
Fortymile creek, BONANZA CREEK,			Natural History of W. part of:—		
KLONDIKE DIST., YKN.....	33, 36, 37 B	XIV	1901.....	158, 159 A	XIV
Fortymile creek, BOW RIVER, ALTA.			1902.....	469-471 A	XV
Altitude of, where crossed by C. P.			Forward bay, CROCROFT ISLAND,		
Ry.....	131 E	IV	B.C.		
Description of; explorations on. . .	9, 10 D	II	Granite rocks of.....	50 B	II
Fortymile river, YUKON RIVER,			Meteorological observations on.....	124 B	II
YKN. AND ALASKA.			Forward inlet, QUATSINO SD., V.I.		
Asbestos on.....	30 D	IV	Anchorage in.....	82 B	II
Coal from near.....	16 A	XIII	Coal on.....	87 R	III
			bituminous.....	146 R	III
			Fossils from.....	67 A	I
				110 B	II
			Low country near, areas of.....	82 B	II
			Geology of.....	83-85 B	II
			Plants from.....	118 B	II

Gold and Silver assays—Con.		
The following are references to assays that show results of not less than 5 dwts. gold and/or 5 oz. silver to the ton; other references are omitted.		
Alberta.		
Bow river	23 M	I
Red Deer river.	41 R	VIII
British Columbia.		
Ainsworth	76 R	III
57 R		IV
61, 62 R		VI
Barkerville	76 R	III
45, 46 T		III
Bonaparte river	35 R	IX
Boulder creek, Omineca div.	78 R	III
Bowen island.	64 R	V
Bridge river.	79 R	III
59 R		IV
Burns mt.	76 R	III
46 T		III
Carbonate creek, East Kootenay . .	78 R	III
52 R		IV
Caribou creek, Kaslo creek.	32 R	IX
Carpenter creek, Slocan lake. . . .	45 R	VII
Cayoosh creek.	79 R	III
Cherry creek, Shuswap river	79 R	III
Columbia river, Big bend.	38 T	II
78 R		III
Horse-thief creek.	57 R	V
Illecillewaet river.	40 T	II
77 R		III
51-54 T		III
56, 57 R		IV
58 R		V
56-59 R		VI
45 R		VIII
Kootenay river.	57 R	III
Kinbasket lake.	54 R	VI
McCulloch creek.	36, 39 T	II
Spillimacheen river and tribs. . . .	27 M	I
78 R		III
52 R		IV
55-57 R		V
54 R		VI
Toby creek.	78 R	III
51 R		IV
55 R		V
Wild Horse creek.	55 R	V
Copper creek, Kamloops lake. . . .	73, 74 R	VI
Fanny bay, Phillip arm.	38 R	XI
Field (near)	40 T	II
Fraser river	79 R	III
59 R		IV
64 R		V
Hixon creek	37 T	II
76 R		III
79 R		III
Yale creek.	79 R	III
Gainer creek, West Kootenay. . . .	35 R	XI
Goat mt., West Kootenay.	35 R	XI
Grande Prairie (near).	33 R	IX
Grouse creek, Cariboo dist.	76 R	III
45 T		III
Harry creek	50 R	VII
Incomappleux (Fish) river	77 R	III
57 R		IV
58 R		VI
Jubilee mt.	77 R	III
54, 55 R		IV
Kalso-Slocan div.	62-67 R	VI
Glacier creek.	46 R	VIII
Sandon (near).	31 R	IX
Slocan lake.	49 R	VIII
55 R		XI
Kokesaila river, V. I.	79 R	III
