

Geological Survey of Canada  
Current Research 2004

This CD-ROM contains a compilation of Current Research articles released from January to April 2004. These articles are provided in Portable Document Format (PDF) and can be viewed with Adobe® Acrobat® Reader® version 5.1 (included in the APPS folder).

This is a Windows-based autostart disk. If the autostart is not working, go to the root of your CD-ROM drive, locate the autoplay.exe file and double click. If you are reading this with a MAC® or Unix® operating system, the autostart will not work. The user can view the complete set of Current Research articles by opening up the PDF folder and double clicking on the CR\_Main\_Page\_E.pdf file.
