

DESCRIPTIVE NOTES

This Radioactivity Map of Canada is one of eight 1:5 000 000 national scale thematic maps which depict the surface radioactivity of Canada. The data for this map were derived from airborne gamma ray spectrometry surveys conducted by the Geological Survey of Canada (GSC) between 1987 and 1995. The data were processed and compiled by the GSC in 1997. The data were processed and compiled by the GSC in 1997. The data were processed and compiled by the GSC in 1997.
