**WINDOCK LAKE AND UPPER FOSTER LAKE AREAS, SASKATCHEWAN**  
In 2005, the Geological Survey of Canada (GSC) completed a geophysical survey of the Windock Lake and Upper Foster Lake areas, Saskatchewan. The survey was conducted using airborne geophysical spectrometric and aeromagnetic data. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft.

**Geophysical Spectrometric Data**  
The survey was conducted using a Sikorsky S-76 helicopter with a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft.

**Geophysical Spectrometric Data**  
The survey was conducted using a Sikorsky S-76 helicopter with a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft.

**Geophysical Spectrometric Data**  
The survey was conducted using a Sikorsky S-76 helicopter with a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft.

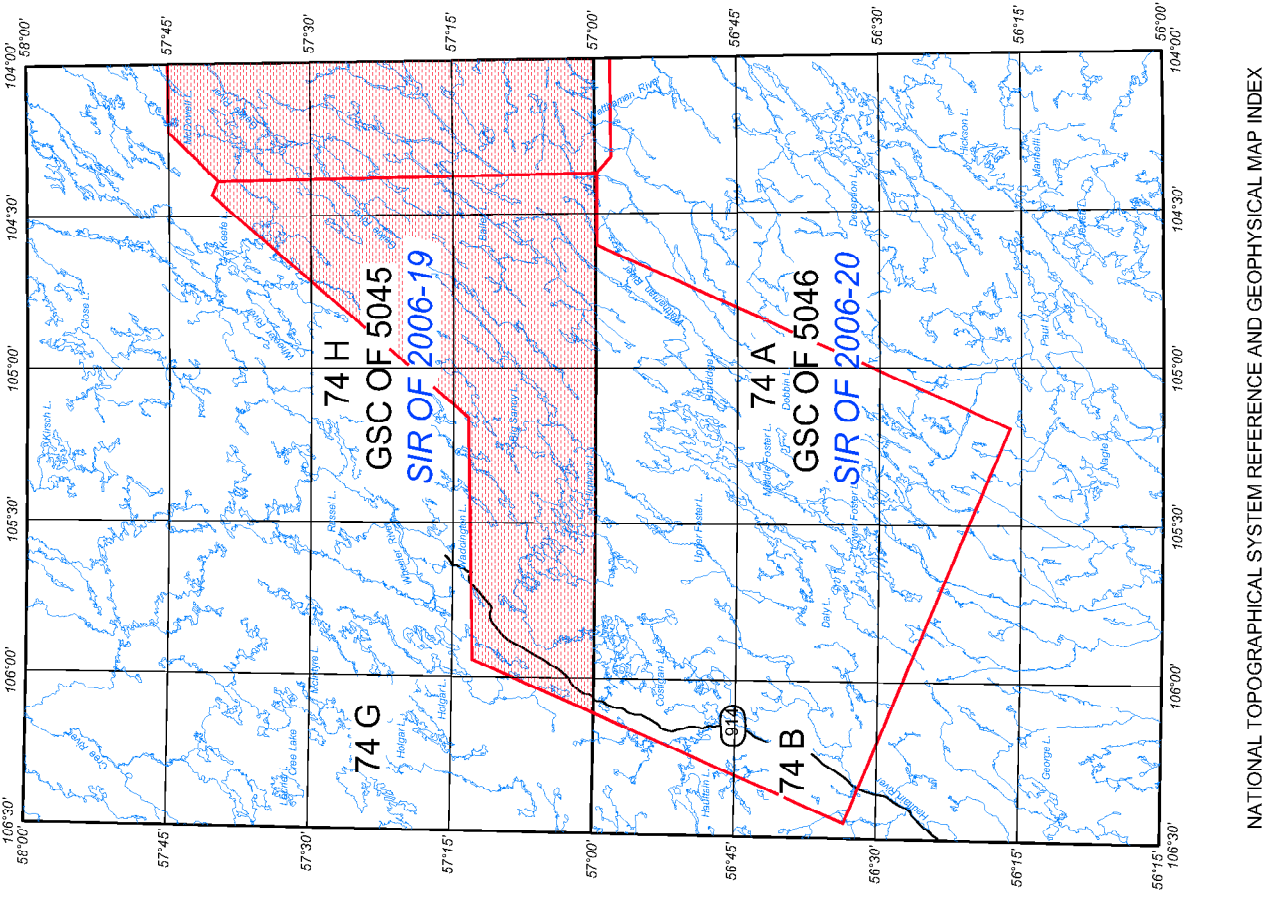

**Geophysical Spectrometric Data**  
The survey was conducted using a Sikorsky S-76 helicopter with a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft. The survey was flown from August 14 to September 20, 2005 using a Cessna 441 Conquest II aircraft.
