

CR 2006-F2

Erratum:

This article was originally released missing a paragraph break. On page 5, the second paragraph of the ‘Discussion’ section should have ended after the sentence “Immediately south of this belt, the large Carpenter Lake pluton and its satellites have been dated (U-Pb, zircon) at 52.6 Ma (Gareau et al., 1997a).” If you downloaded this article before November 9, 2006, you will want to note this correction or download the article again.
