

HUDSON BAY

BAIE D'HUDSON

DESCRIPTIVE NOTES

The Radioactivity Map of Manitoba is one of a set of eight 1:500,000 regional compilation maps that indicate the equivalent uranium/potassium (U/P) radioactivity... The map was produced using data from the Digital Geospatial System (DGS)...

Geophysical compilation by J.M. Carson, P.R. Holmer, and K.L. Ford

Digital cartography by R. Blanchard-Pilon, Data Dissemination Division (DGD)

This map was produced from processes that conform to the Scientific and Technical Publishing Branch (STPB) Quality Management System, registered to the ISO 9001:2000 standard.

Any additions or additional geospatial information known to the user would be welcomed by the Geological Survey of Canada.

Digital base map at the scale of 1:1 000 000 from the Digital Chart of the World (DCW) from Environmental Systems Research Institute (ESRI), with modifications by DGD.

EQUIVALENT URANIUM/POTASSIUM RADIOACTIVITY MAP OF MANITOBA

Scale 1:1 000 000/Echelle 1/1 000 000

Map projection information: Lambert Conformal Conic Projection, Standard Parallels 49°30'N and 50°30'N, North American Datum 1983.
