	<i>Bonnia-Olenellus</i>			Dyeran		
Early	Mount Clark Fm.		<i>Nevadella</i>	Montezuman		
		<i>Fallotaspis</i>				
		542	PRECAMBRIAN			

Figure 2. Table of Cambrian lithostratigraphic units and associated trilobite biostratigraphy. Time scale after Gradstein et al. (2004), formations after Dixon and Stasiuk (1998), and trilobite biostratigraphy based on the North American Cambrian stages after Ludvigsen et al. (1985), Palmer (1998), and Sundberg (2005).
