## INTRODUCTION

This paper is intended to be used in conjunction with the index by A. G. Johnston and the supplement for 1959, 1960 by H. M. A. Rice. Together they index all publications of the Geological Survey of Canada according to the National Topographic System to the end of 1962, in the same manner as in Johnston's index.

It also contains an author index, not only for this supplement but also the earlier supplement which was published without one.
