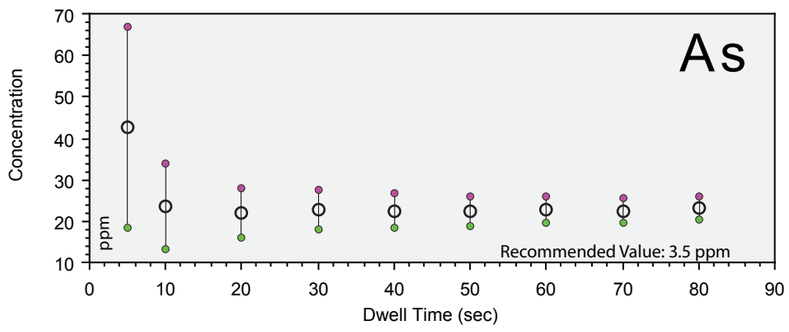
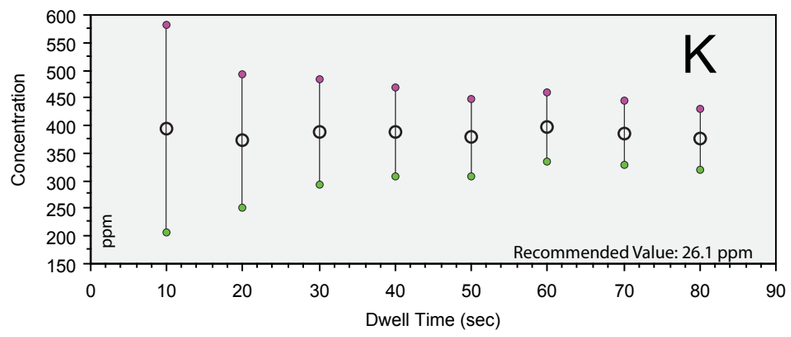
Sample ID: DLH 10b
Material Type: Glass
Produced by:
Hamilton D.L. and Hopkins T.C.*

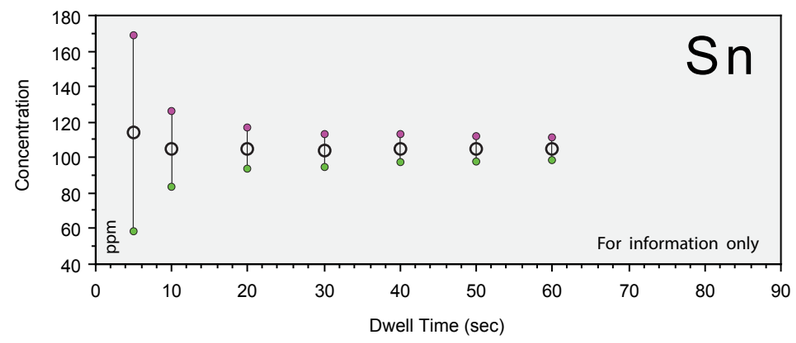
pXRF: Niton XL3t GOLDD, 50-kv Cygnet X-ray tube
Mode Type: Soil Mode, Compton normaliztion
Vial Window: 6 µm SpectroCertified Mylar polyester

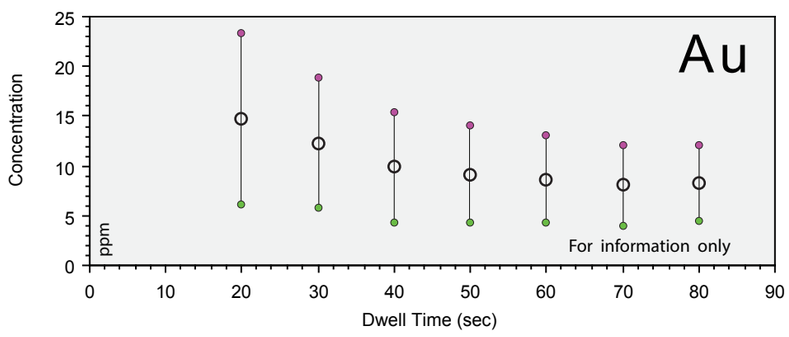
Mean measured value + 2σ
Mean measured value
Mean measured value - 2σ

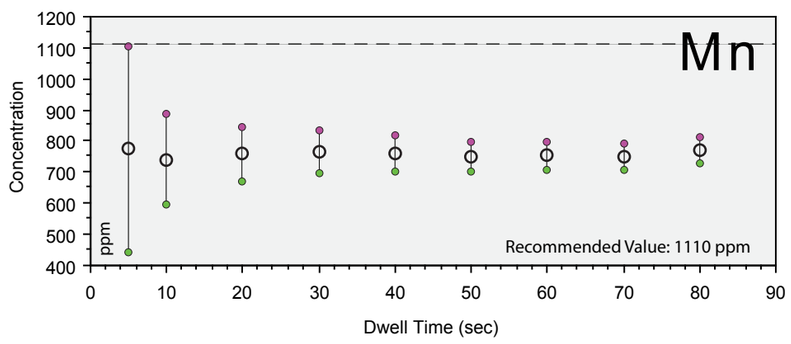
Recommended value

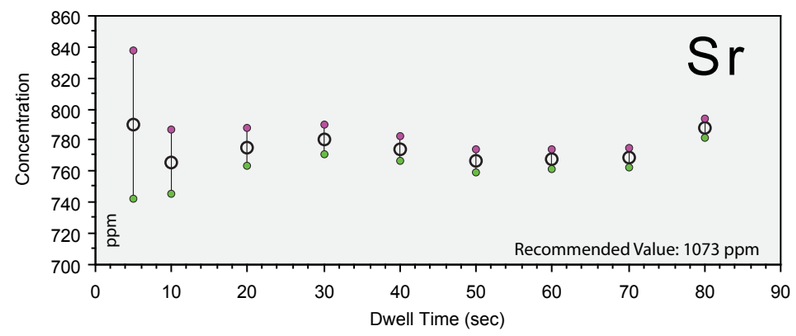


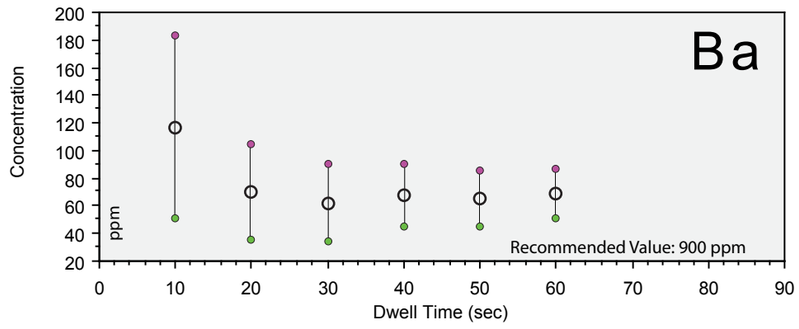


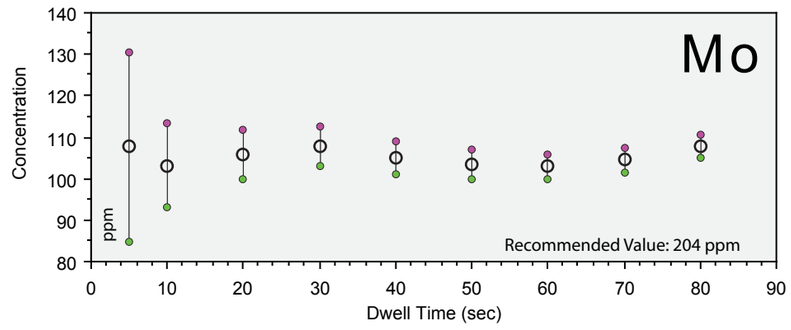


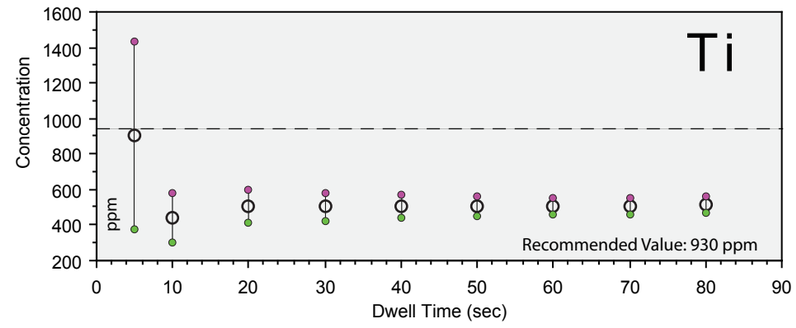


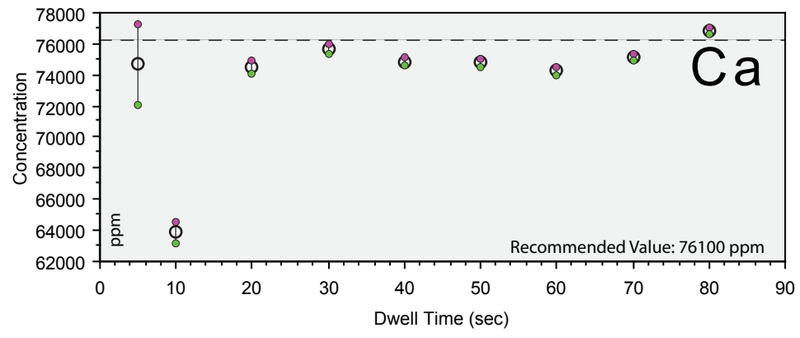


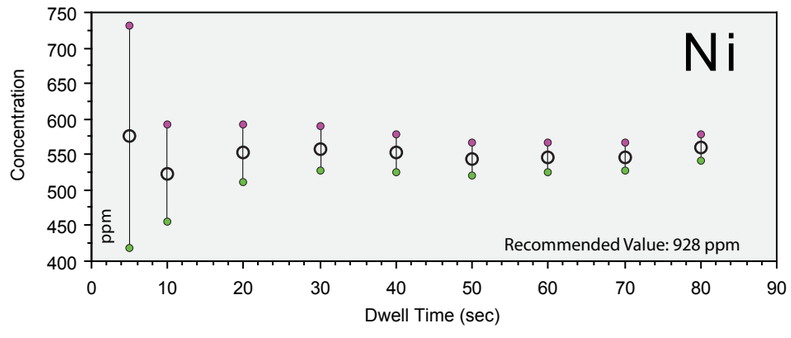


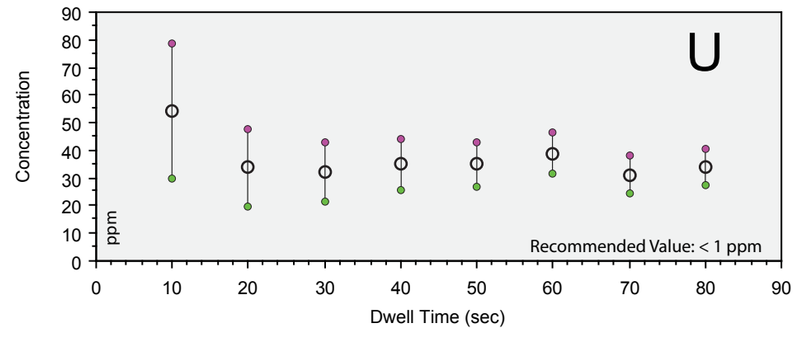


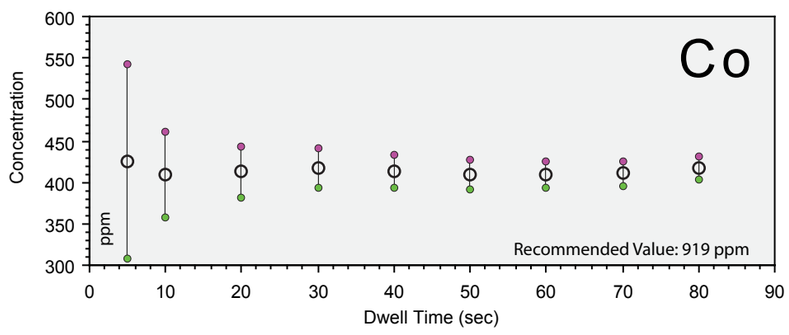


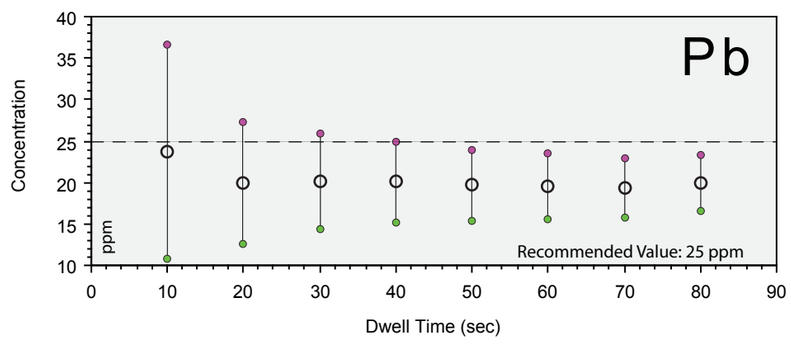


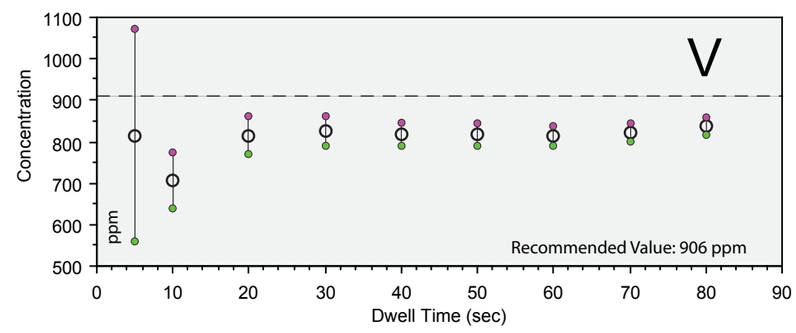


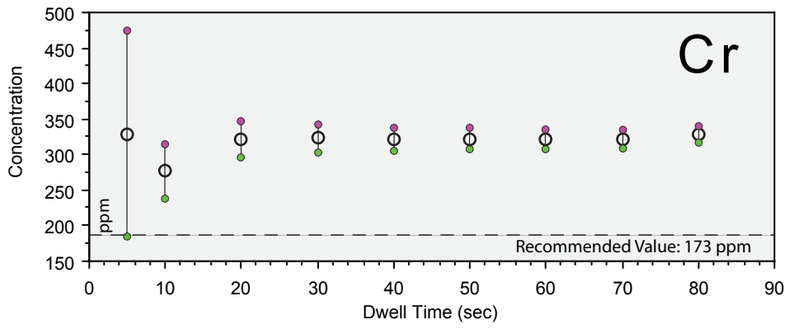


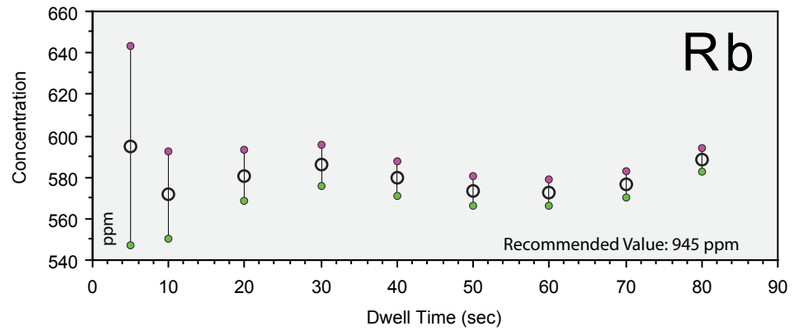


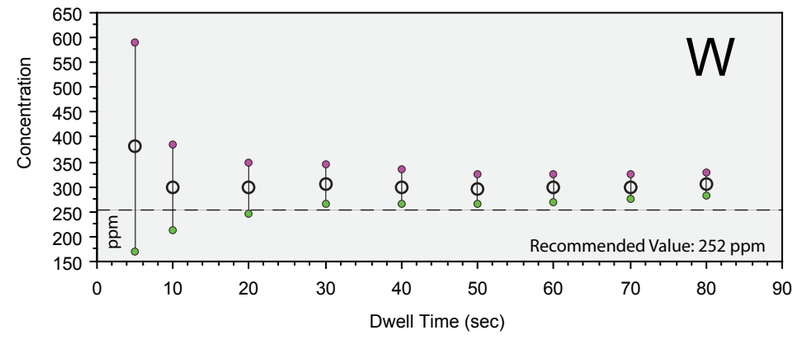


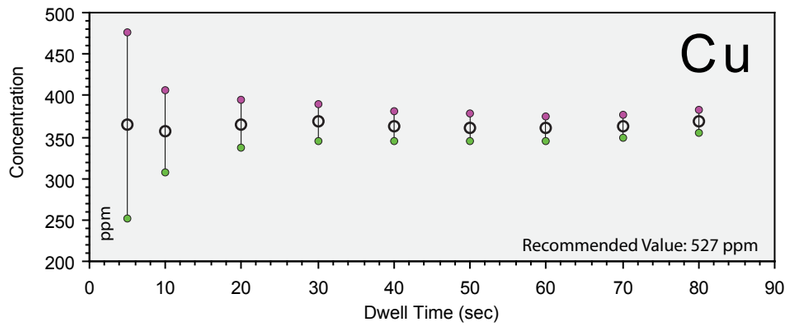


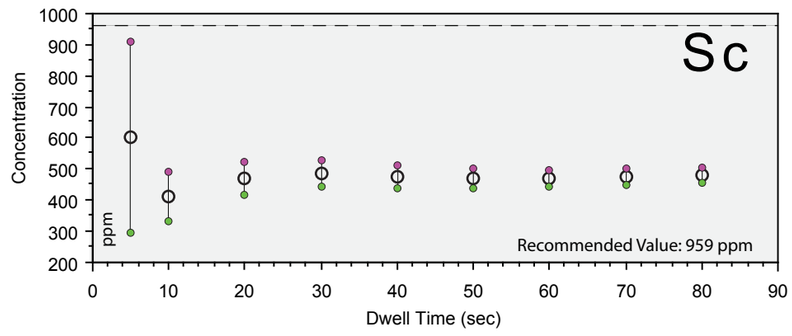


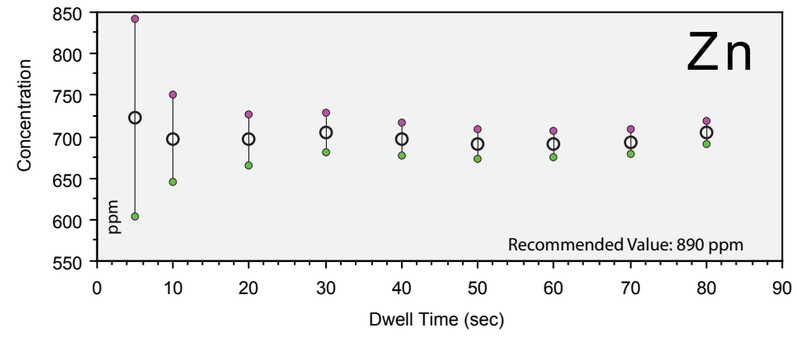


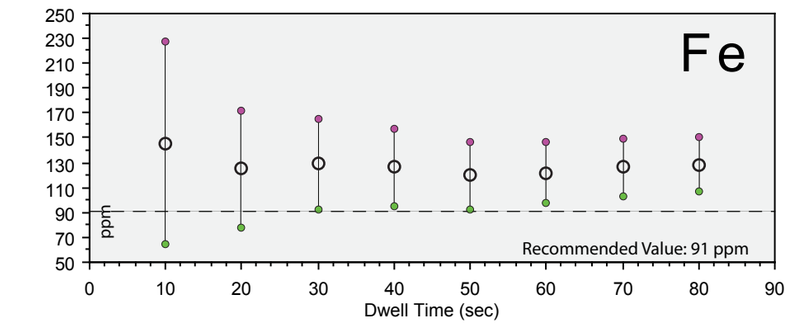


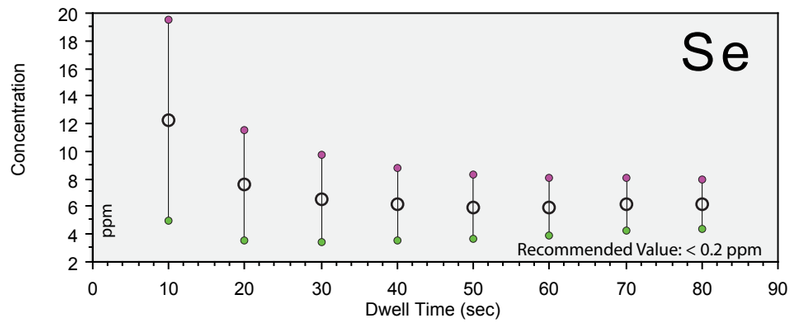


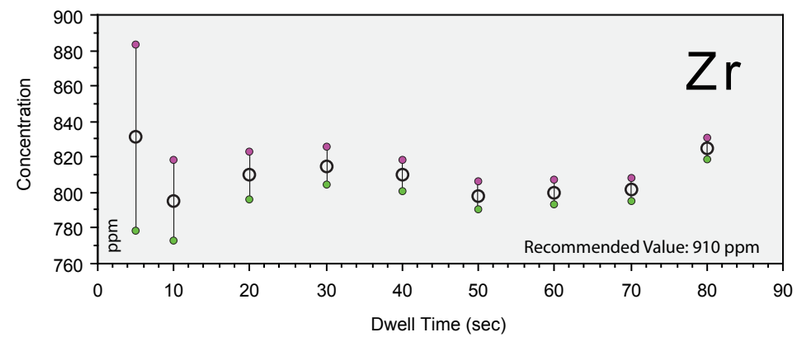












*Hamilton D.L., and Hopkins, T.C., 1995. Preperation of Glasses for use as Chemical Standards Involving the Coprecipitated Gel Technique. Analyst, v. 120, p. 1373-1377.
