METALLOGENIC MAPS

The main purpose of these maps is to show the location of known occurrences in Canada and to permit relating this information to principal geological features. The above maps are printed on transparent paper and on the same scale as the Geological Map of Canada (No. 1045-A, scale 1 inch to 120 miles) so that geological comparisons can be made by placing the maps over map 1045-A.  
Price, 50 cents per copy.
