PREFACE

The present seems to be an appropriate time to print up-to-date lists of Dominion and Topographical Land Surveyors. Such lists were prepared in 1891 by Mr. P. B. Symes, then the Secretary of the Board, and published in that year's Report of the Department of the Interior. The 1891 lists were revised in 1913 by Mr. F. D. Henderson, D. L. S., the Board Secretary at that time. Mr. Henderson's lists were left open and were not published. At no time since then have completed lists been available for ready reference.

Both the 1891 and 1913 lists of Dominion Land Surveyors were complete in themselves in that the appointed surveyors and those who were commissioned after examination before the Board were listed together. (In accordance with the provisions of the Dominion Lands Act of 1872, any surveyor who had qualified before that date to survey provincial lands in any of the provinces of Canada was eligible for appointment as a Surveyor of Dominion Lands.) In these present lists the names of the surveyors in the two categories have been separated and placed within the respective groupings.

Lists of members and secretaries of the Board of Examiners, and of candidates who became eligible for appointment as levellers on surveys of Dominion lands, have been included as matters of interest and of record.

Now that the listings have been compiled it will be easy and fitting to revise them for another printing either in 1967 for the Centennial Year or in 1974 when it could be aptly entitled "One Hundred Years before the Board".

Notes and brief explanations, pertaining to the separate lists, follow.

List I, "Members and Secretaries of the Board of Examiners", was compiled from the records of minutes of the meetings of the Board of Examiners and from material in "A History of the Canadian Institute of Surveying and Photogrammetry" by John Carroll.

The Dominion Lands Act of 1872 provided for the creation of a Board of Examiners consisting of the Surveyor General and eight other competent persons (any three of the nine members to form a quorum). The Board was set up by Order-in-Council in 1875 and the first meeting was held at Winnipeg in June of that year. Members present were Lindsay A. Russell (Chairman), A. H. Whitcher and William Pearce. The Act, as amended in 1899, prescribed that the membership of the Board should be changed from 9 to 3 and made up of the Surveyor General and two Dominion Topographical Surveyors. Mr. Edouard Deville was the Surveyor General at the time. Messrs. W. F. King and Otto J. Klotz continued to serve as the other two members of the Board.

List II, "Land Surveyors Appointed as Surveyors of Dominion Lands etc. . .", was prepared, for the most part, by selecting the names from the 1891 list of Dominion Land Surveyors. A few were added after referring to the minutes of meetings of the Board. In all, there are 436 names in the list. The first surveyors appointed were admitted to practice as "Deputy Surveyors of Dominion Lands" but by 1875 all were styled "Dominion Land Surveyors".

The lack of complete names and other details precludes the identification of Wm. Smith. There may have been two men with identical names or just one man whose name was repeated in error.

List III, "Dominion Land Surveyors Commissioned after Examination before the Board", was compiled from the five volumes, Lib. I to Lib. V, titled "Registered Commissions to Dominion Land Surveyors". The volumes are record books of the Board. Commissions were recorded in chronological order but for the purposes of this listing, the names, 880 in number, were arranged alphabetically. The columns have no headings but on each line there is shown the surveyor's name, his place of residence, the number of his commission and the date of its issue.

List IV, "Dominion Topographical Surveyors", is in two parts. The first is an index with the names, 32 in number, arranged in alphabetical order; the second (for the sake of interest) is in chronological order. The dates of qualification as D. L. S. and D. T. S. are both given, to help quash the somewhat widely held idea that at one time those candidates who received exceptional marks in the D. L. S. examination were granted D. T. S. commissions without being required to sit for further examination. The chronological list was taken from the record book of the Board entitled "Register of Commissions to Dominion Topographical Surveyors, Lib. I". The index was prepared from the chronological list.

Before 1951, when the Canada Lands Surveys Act was passed, Dominion Topographical Surveyors were commissioned as qualified for the prosecution of extensive governing or topographical surveys, and geographic explorations. Since that date they have been granted certificates as to a knowledge of the higher branches of surveying. Mr. Lilly was the last to receive the commission and Mr. Klinkenberg the first to be granted the certificate.

List V, "Levellers Eligible for Certificate after Examination before the Board", is comprised of 206 names copied from the card index that had been set up to keep a record of the results of the Levellers' Examination".

In 1916, for the first time, levels were taken in connection with all township subdivision surveys carried out by the Topographical Surveys Branch of the Department of the Interior.

It was soon thereafter that it became the responsibility of the Board to conduct the examination for levellers and to issue certificates to successful candidates.

(1875 - 1964)

* J. S. Dennis	Surveyor General	(1871 - 1878)	and	Chairman	(1875 - 1878)
* Lindsay A. Russell,	DLS	1875 - 1878
