**NORTHWEST TERRITORIES AND YUKON TERRITORY**

The information contained in this map forms part of the National Atlas of Canada Data Base. The National Atlas is a coordinated series of maps published over a period of time, providing geographical information on a wide range of subject matter for Canada as a whole. The maps are normally published at the scale of 1:7 500 000. Because some areas require more detailed information, selected research map microforms and compilations together with related information usually at the scale of 1:2 000 000 will be available for reference on open file. In response to special demands, limited printed editions of certain data base maps are sometimes produced. Digital products will eventually be available.

For further information on open file material in the National Atlas of Canada Data Base, contact Assistant Director, Geographical Research, Geographical Services Division, Energy, Mines and Resources Canada, Ottawa, Canada, K1A 0S5. **NOTES:**

No definite statement on the precise legal status of Indian Reserve or Settlement land can be made without extensive enumeration of particular cases. In general terms, an Indian Reserve is a tract of land the legal title to which is vested in Her Majesty, and which has been set apart for the use and benefit of an Indian Band. The Indian Reserves are administered under the terms of the Indian Act, R.S.C. 1970.

Indian or Inuit Settlements, although situated on Crown land, are not subject to the terms of the Indian Act.

Other Indian or Inuit Communities represent distinct centres of native population.

No information is shown for Reserves, Settlements or Other Communities outside the Northwest Territories and Yukon Territory.

Land boundary information for Indian and Inuit Communities is based on data available as of January, 1983. The Indian Reserve designations as established or established, are based on estimates of registered Indian population as of December 31, 1980.

This map was prepared in consultation with officials of Indian and Northern Affairs Canada and Legal Services Division, Surveys and Mapping Branch, Energy, Mines and Resources Canada. Research by L.
